Middle East this book disentangles the role of alternative networks and other forms of political conflict with reference to the Egyptian case in mobilising and forming a potential revolutionary movement During the 2011 uprisings in Egypt the Muslim Brotherhood monopolised the space of dissent preventing the formation of common identities among the protesters Particularly social actors in the Egyptian Street and other opposition groups did not find any place within the post uprisings government and have been demobilised by the politics and political discourse of a pseudo Neo Nasserism implemented by the regime after the 2013 military coup Rethinking Statehood in Palestine Leila H. If We Burn Vincent Bevins, 2023-10-03 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW REPUBLIC VERSO AND THE JOURNAL OF DEMOCRACY AN N 1 MAGAZINE 2023 RECOMMENDED BOOK The story of the recent uprisings that sought to change the world and what comes next From 2010 to 2020 more people participated in protests than at any other point in human history Yet we are not living in more just and democratic societies as a result Acclaimed journalist Vincent Bevins carried out hundreds of interviews around the world guided by a single puzzling question How did so many mass protests lead to the opposite of what they asked for The result is a stirring work of history that connects events in a dozen countries and reveals that conventional wisdom on revolutionary change is gravely misguided From the so called Arab Spring to Gezi Park in Turkey from Ukraine's Euromaidan to student rebellions in Chile and Hong Kong Bevins provides a blow by blow account of street movements and their consequences recounted in gripping detail In this groundbreaking study of an extraordinary chain of events protesters and major actors look back on successes and defeats offering urgent lessons for the future **War, Work, and Want** Randall Hansen, 2023-08-29 An expansive history of how an economic shock a half century ago created a world that is addicted to mass migration The oil shock of 1973 changed everything It brought the golden age of American and European economic growth to an end it destabilized Middle Eastern politics and it

set in train processes that led to over one hundred million unexpected and unwanted immigrants In War Work and Want Randall Hansen asks why against all expectations global migration tripled after 1970 The answer he argues lies in how the OPEC Oil crisis transformed the global economy Middle Eastern geopolitics and as a consequence international migration The quadrupling of oil prices and attendant inflation destroyed economic growth in the West while flooding the Middle East with oil money American and European consumers their wealth drained rebuilt their standard of living on the back of cheap labor and cheap migrants The Middle East enjoyed the benefits of a historic wealth transfer but oil became a poisoned chalice leading to political instability revolution and war all of which resulted in tens of millions of refugees The economic and migratory consequences of the OPEC oil crisis transformed the contours of domestic politics around the world They fueled the growth of nationalist populist parties that built their brands on blaming immigrants for collapsing standards of living willfully ignoring the fact that mass immigration was the effect not the cause of that collapse In showing how war the main driver of refugee flows work labor migrants and want the desire for ever cheaper products made by migrants led to the massive upsurge in global migration after 1973 this book will reshape our understanding of the past half century of global history

The Gentry of North Wales in the Later Middle Ages Antony D Carr, 2017-10-12 This is a study of the landed gentry of north Wales from the Edwardian conquest in the thirteenth century to the incorporation of Wales in the Tudor state in the sixteenth The limitation of the discussion to north Wales is deliberate there has often been a tendency to treat Wales as a single region but it is important to stress that like any other country it is itself made up of regions and that a uniformity based on generalisation cannot be imposed This book describes the development of the gentry in one part of Wales from an earlier social structure and an earlier pattern of land tenure and how the gentry came to rule their localities There have been a number of studies of the medieval English gentry usually based on individual counties but the emphasis in a Welsh study is not necessarily the same as that in one relating to England The rich corpus of medieval poetry addressed to the leaders of native society and the wealth of genealogical material and its potential are two examples of this difference in emphasis

Decolonizing Israel, Liberating Palestine Jeff Halper, 2021-01-20 Extremely convincing Electronic Intifada For decades we have spoken of the Israel Palestine conflict but what if our understanding of the issue has been wrong all along This book explores how the concept of settler colonialism provides a clearer understanding of the Zionist movement's project to establish a Jewish state in Palestine displacing the Palestinian Arab population and marginalizing its cultural presence Jeff Halper argues that the only way out of a colonial situation is decolonization the dismantling of Zionist structures of domination and control and their replacement by a single democratic state in which Palestinians and Israeli Jews forge a new civil society and a shared political community To show how this can be done Halper uses the 10 point program of the One Democratic State Campaign as a guide for thinking through the process of decolonization to its post colonial conclusion Halper's unflinching reframing will empower activists fighting for the rights of the Palestinians and democracy for all

The Age of Counter-Revolution Jamie Allinson, 2022-05-26 The Arab Spring has come to symbolise defeated hopes for democracy and social justice in the Middle East In this book Jamie Allinson demonstrates how these defeats were far from inevitable Rather than conceptualising the Arab Spring as a series of failed revolutions Allinson argues it is better understood as a series of successful counter revolutions By comparing the uprisings in Tunisia Egypt Syria Bahrain Libya and Yemen this book shows how these profoundly revolutionary situations were overturned by counter revolutions Placing the fate of the Arab uprisings in a global context Allinson reveals how counter revolutions rely on popular support and cross borders to forge international alliances By connecting the Arab uprisings to the decade of global protest that followed them this innovative work demonstrates how new forms of counter revolution have rendered it near impossible to implement political change without first enacting fundamental social transformation

Political Islam, Justice and Governance Mbaye Lo, 2018-11-08 This book argues that political Islam represented by its moderate and militant forms has failed to govern effectively or successfully due to its inability to reconcile its discursive understanding of Islam centered on literal justice with the dominant neo liberal value of freedom Consequently Islamists polities have largely been abject often tragic failures in providing a viable collective life and sound governance This argument is developed theoretically and supported through a set of case studies represented by the Muslim Brotherhood in Egypt under President Muhammad Morsi s tenure Hassan Turabi s National Islamic Front in Sudan and The Islamic State in Iraq and Syria ISIS It is ideal for audiences interested in Regional Politics Islamic Studies and Middle Eastern Studies

Promoting Democracy, Reinforcing Authoritarianism Benjamin Schuetze, 2019-11-07 A detailed examination of the role of US and European democracy promoters in Jordan based on a diverse range of original source material

Crisis and Class War in Egypt Sean F. McMahon, 2016-10-15 In 2011 capital s crisis erupted in Egyptian society This eruption and subsequent politics have been misrepresented as revolutionary as the working class was and is increasingly so devalued and disempowered In *Crisis and Class War in Egypt* Sean F McMahon critically analyses Egypt s recent political history He argues that the so called revolution was the appearance of capital s destruction of the value of the Egyptian working class and an existential crisis for capital In response productive capital in the form of the military used disposed of and replaced its junior partners in governing first the predatory capital of the Mubarak state with the commodity capital of the Muslim Brotherhood and then commodity capital with the finance capital of the Gulf Cooperation Council These reconfigurations have been expressed in all manner of reactionary governmental arrangements including constitutions legislation and currency reform Extending today s analysis into the near future McMahon sees the war of Egyptian society intensifying and increasingly violent lives for Egyptian workers
