examination of key union strategies including systems of co determination consultation and collective bargaining a chapter dealing specifically with European legislation in particular the McDonald s European Works Council The author systematically analyzes the conflict between the McDonald s Corporation and the industrial relations systems of the European countries within which it operates and exposes this conflict as an unequal struggle between economic liberalism and collectivism Golden Arches East James L. Watson,2006-03-13 McDonald s restaurants are found in over 100 countries serving tens of millions of people each day What are the cultural implications of this phenomenal success The widely read and widely acclaimed Golden Arches East argues that McDonald s has largely become divorced from its American roots and become a local institution for an entire generation of affluent consumers in Hong Kong Beijing Taipei Seoul and Tokyo In the second edition James L Watson also covers recent attacks on the fast food chain as a symbol of American imperialism and the company s role in the obesity controversy currently raging in the U S food industry bringing the story of East Asian franchises into the twenty first century Praise for the First Edition Golden Arches East is a fascinating study that explores issues of globalization by focusing on the role of McDonald s in five Asian economies and concludes that in many countries McDonald s has been absorbed by local communities and become assimilated so that it is no longer thought of as a foreign restaurant and in some ways no longer functions as one Nicholas Kristof New York Times Book Review This is an important book because it shows accurately and with subtlety how transnational culture emerges It must be read by anyone interested in globalization It is concise enough to be used for courses in anthropology and Asian studies Joseph Bosco China Journal The strength of this book is that the contributors contextualize not just the food side of McDonald s but the social and cultural activity on which this culture is embedded These are culturally rich stories from the anthropology of everyday life Paul Noguchi Journal of Asian Studies Here is the rare academic study that belongs in every library Library Journal **Franchise Opportunities Handbook** United States. Domestic and International Business Administration,1986 This is a directory of companies that grant franchises with detailed information for each listed franchise Working in America Amy S. Fast Food, Fast Talk Robin Leidner, 1993-08-04 Attending Hamburger University Robin Leidner observes how McDonald s trains the managers of its fast food restaurants to standardize every aspect of service and product Learning how to sell life insurance at a large midwestern firm she is coached on exactly what to say how to stand when to make eye contact and how to build up Positive Mental Attitude by chanting I feel happy I feel terrific Leidner s fascinating report from the frontlines of two major American corporations uncovers the methods and consequences of regulating workers language looks attitudes ideas and demeanor Her study reveals the complex and often unexpected results that come with the routinization of service work Some McDonald s workers resent the constraints of prescribed uniforms and rigid scripts while others appreciate how routines simplify their jobs and give them psychological protection against unpleasant customers Combined Insurance goes further than McDonald s in attempting to standardize the workers very selves instilling in them adroit maneuvers to overcome customer resistance The routinization of service work has both poignant and preposterous consequences It tends to undermine shared understandings about individuality and social obligations sharpening the tension between the belief in personal autonomy and the domination of a powerful corporate culture Richly anecdotal and accessibly written Leidner s book charts new territory in the sociology of work With service sector work becoming increasingly important in American business her timely study is particularly welcome

Meals Matter Michael Symons,2020-06-02 Until the early nineteenth century political philosophy and economics were dining companions Both took up fundamental questions of how we should feed one another But with the rise of corporate capitalism modern economics lost sight of its primary task and turned away from the complexities of real people's sustenance in favor of the single minded pursuit of money In *Meals Matter* Michael Symons returns economics to its roots in the distribution of food and the labor required Setting the table with vivid descriptions of conviviality he offers a gastronomic rebuttal to the narrow worldview of mainstream economics Engaging with a wide variety of thinkers including Epicurus Enlightenment philosophers such as Thomas Hobbes and John Locke the gastronome Jean Anthelme Brillat Savarin and economic theorists from Francois Quesnay and Adam Smith through the neoliberals Symons traces how we went astray and how we can find our way back to a more caring sustainable way of life He finds hope for shared table pleasure in institutions like community gardens street markets and banquets and in eating fresh local and slow food An innovative historically based argument at the intersection of food history and social thought *Meals Matter* challenges us to reject the economics of greed in favor of a community based economics of sharing and gastronomic enjoyment

[Labour Relations in the Global Fast-Food Industry](#) Tony Royle,Brian Towers,2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights
