Meat A Natural Symbol:

Meat Nick Fiddes, 2004-01-14 This book is a broad ranging and provocative study of the human passion for meat It will intrigue anyone who has ever wondered why meat is important to us why we eat some animals but not others why vegetarianism is increasing why we aren't cannibals and how meat is associated with environmental destruction **Natural Symbols** Mary Douglas, 2002-09-11 Every natural symbol derived from blood breath or excrement carries a social meaning and this work focuses on the ways in which any one culture makes its selections from body symbolism Each person treats their body as an image of society and the author examines the varieties of ritual and symbolic expression and the patterns of social ritual in which they are embodied *Natural Symbols* is a book about religion and it concerns our own society at least as much as any other It has stimulated new insights into religious and political movements and has provoked re appraisals of current progressive orthodoxies in many fields As a classic it represents a work of anthropology in its widest sense exploring themes such as the social meaning of natural symbols and the image of the body in society which are now very much in vogue in anthropology sociology and cultural studies In this reissue and with a new Introduction *Natural Symbols* will continue to appeal to all students of anthropology sociology and religion *Nature Ethics* Marti Kheel, 2008 In *Nature Ethics* An Ecofeminist Perspective Marti Kheel explores the underlying worldview of nature ethics offering an alternative ecofeminist approach Seeking to heal the divisions between the seemingly disparate movements and philosophies of feminism animal advocacy environmental ethics and holistic health Kheel proposes an ecofeminist philosophy that underscores the importance of empathy and care for individual beings as well as larger wholes **Natural Symbols** Professor Mary Douglas, Mary Douglas, 2004-06-01 One of the most important works of modern anthropology Written against the backdrop of the student uprisings of the late 1960s the book took seriously the revolutionary fervour of the times but instead of seeking to destroy the rituals and symbols that can govern and oppress Mary Douglas saw instead that if transformation were needed it could only be made possible through better understanding Expressed with clarity and dynamism the passionate analysis which follows remains one of the most insightful and rewarding studies of human behaviour ever written **A Full-Bodied Society** Logie Barrow, 2010-04-16 The human body is always changing its meanings Historical research on this can draw on a host of specialisms Historians letrists and linguists contribute to this book a coherent little tumult of perspectives what was thinkable for pagan and Christian Anglo Saxons and how far did the two really differ Why did New English Puritans stop addressing God as if He were their breast feeding Mother How did Western colonisers perspectives on animals and on subject races interact How did Victorian and Edwardian women's participation in sports grow How transgressive was the figure of the dandy What motivated late Victorian panics over prostitution and on what terms were victims helped Why in an increasingly democratic age did reactions to Britain's first universal health measure become a basis for cynicism about the masses Repeatedly the rigidity of separation between male and female fluctuated as did the boundaries themselves

Sometimes the greater the rigidity the less the sources may tell us of resistance to them But sometimes this can be inferred indirectly Better testimony than this volume to the liveliness and variety of body studies is hard to imagine **Animal Industries** Taina Syrjämaa, Marja Jalava, Taija Kaarlenkaski, Otto Latva, Eeva Nikkilä, Tuomas Räsänen, 2024-04-01 This book examines an extremely topical phenomenon the massive industrial exploitation of animals from a previously neglected perspective It explores the history and development of animal industries in Nordic countries from their establishment in the late nineteenth century to the present day These countries are often considered to be progressive and advanced in animal protection but consumption practices in this area are actually excessive in relation to planetary resources and are among the most unsustainable on a global scale If we want to understand current problems it is essential to be aware of long term changes and continuities as well as the diversity of animals that have been exploited The purpose of this book is to explain these changes and provide new knowledge for scholars in human animal studies decisionmakers and the general public

Animals, Rights and Reason in Plutarch and Modern Ethics Stephen T. Newmyer, 2013-04-15 This groundbreaking volume explores Plutarch's unique survival in the argument that animals are rational and sentient and that we as humans must take notice of their interests Exploring Plutarch's three animal related treatises as well as passages from his ethical treatises Stephen Newmyer examines arguments that strikingly foreshadow those found in the works of such prominent animal rights philosophers as Peter Singer and Tom Regan Unique in viewing Plutarch's opinions not only in the context of ancient philosophical and ethical thought but also in its place in the history of animal rights speculation *Animals Rights and Reasons* points out how remarkably Plutarch differs from such anti animal thinkers as the Stoics Classicists philosophers animal welfare students and interested readers will all find this book an invaluable and informative addition to their reading

Deep Vegetarianism, Challenging the basic assumptions of a meat eating society *Deep Vegetarianism* is a spirited and compelling defense of a vegetarian lifestyle Considering all of the major arguments both for and against vegetarianism and the habits of meat eaters vegetarians and vegans alike Michael Allen Fox addresses vegetarianism's cultural historical and philosophical background details vegetarianism's impact on one's living and thinking and relates vegetarianism to classical and recent defenses of the moral status of animals Demonstrating how a vegetarian diet is related to our awareness of the world and our ethical outlook on life Fox looks at the different kinds of vegetarian commitments people make and their reasons for making them In chapters that address such issues as the experiences emotions and grounds that are part of choosing vegetarianism Fox discusses not only good health animal suffering and the environmental impacts of meat production but such issues as the meaning of food world hunger religion and spirituality and significantly the links shared between vegetarianism and other human rights movements and ideologies particularly feminism In an extensive chapter that addresses arguments made by advocates of meat eating Fox speaks to claims of humans as natural carnivores animals as replaceable and vegetarians as anti feminist He also addresses arguments surrounding the eating habits of indigenous

peoples eating free range animals and carnivorous behavior among animals The most complete examination of the vegetarian outlook to date Deep Vegetarianism reveals the broad range of philosophical views that contribute to such a choice It recognizes and calls for a conscious awareness of and an individual responsibility to the issues that exist in the moral political and social spheres of our existence With its lively and controversial discussion Deep Vegetarianism promises to appeal to anyone looking to explore the relationship between dietary choice lifestyle the treatment of animals and the environment and personal ethical responsibility It will also be particularly useful for students and teachers of moral philosophy ethics religion comparative cultures ecology and feminism

Climate Change, Cattle, and the International Legal Order Rebecca Williams, 2024-05-30 Livestock food systems need to be rapidly rethought to tackle the global climate crisis This book examines how climate concerns for the livestock sector are governed in international law and addresses the sector's inclusion or lack thereof across the international governance of climate change agriculture forests and trade The book provides a wide ranging analysis of legal regimes at the international level that affect emissions from cattle and where relevant livestock more broadly On this basis tensions interactions and common themes for livestock emissions mitigation across the international climate change forestry agricultural and agri trade regime are identified This showcases where productive synergies and damaging tensions have emerged across the cross cutting nature of livestock governance enabling goals of fairer and more effective emissions mitigation for the sector to be achieved In addition to addressing issues such as food security and public health the book highlights the problem of affluence in reducing cattle emissions from meat consumption This key insight is significant in terms of tackling future livestock emissions trajectories particularly in relation to securing climate justice within the agricultural sector and securing equitable and effective livestock solutions The book is a key text for all those with an interest in the legal governance of climate change and agriculture adding to the timely debate on the future sustainability of the global diet and the relationship between affluence and climate change

Critical Animal and Media Studies Núria Almiron,Matthew Cole,Carrie P. Freeman,2015-10-14 This book aims to put the speciesism debate and the treatment of non human animals on the agenda of critical media studies and to put media studies on the agenda of animal ethics researchers Contributors examine the convergence of media and animal ethics from theoretical philosophical discursive social constructionist and political economic perspectives The book is divided into three sections foundations representation and responsibility outlining the different disciplinary approaches application to media studies and covering how non human animals and the relationship between humans and non humans are represented by the mass media concluding with suggestions for how the media as a major producer of cultural norms and values related to non human animals and how we treat them might improve such representations

The Good Eater Nina Guilbeault,2024-04-16 Not to be missed Michael Pollan via X An enlightening and delicious look at how vegans and their critics are redefining the way the world eats in the twenty first century For years there has been no doubt that widespread consumption of meat is both environmentally destructive and morally dubious A growing chorus of scientists health experts and activists champion the benefits of a plant based diet Nevertheless change has been slow to arrive and the chasm between our appetites and our collective well being seems impossibly vast We know we must transition to a more plant based world But what would such a world look like and how do we realistically get there One group of people has been grappling with this question for decades vegans Once mocked for its hempy puritanism the vegan movement has grown from a fringe identity into a veritable cultural juggernaut Yet visions of what our food system should look like continue to conflict Is the healthful vegan lifestyle appealing or alienating Are high tech meat alternatives merely a repeat performance of harmful fast food values Is modern veganism itself misguided a wrong answer to the right questions In *The Good Eater* Harvard trained sociologist and vegan Nina Guilbeault PhD vividly explores the movement s history and its present day tensions by grappling with the most fundamental question of all Is there a truly ethical way to eat What emerges is a fascinating portrait of how social change happens with profound implications for our plates and our planet

Food and Sustainability in the Twenty-First Century Paul Collinson,Iain Young,Lucy Antal,Helen Macbeth,2019-06-06 Sustainability is one of the great

problems facing food production today Using cross disciplinary perspectives from international scholars working in social cultural and biological anthropology ecology and environmental biology this volume brings many new perspectives to the problems we face Its cross disciplinary framework of chapters with local regional and continental perspectives provides a global outlook on sustainability issues These case studies will appeal to those working in public sector agencies NGOs consultancies and other bodies focused on food security human nutrition and environmental sustainability

The Economy of Icons Ernest Sternberg, 1999-09-30 Though many still think that we live in an information economy Ernest Sternberg asserts that the driving force in 21st century capitalism is not information but image Through studies of food processing real estate development tourism movies and labor performances he examines how businesses endow products with evocative meaning It has become common wisdom that we live in a postindustrial information society in which data and calculation underlie wealth But now that information is as routinely produced as industrial or agricultural goods businesses are discovering that they best achieve competitive advantage by producing what consumers most dearly seek personal meaning The 21st century economy produces just that not merely information but evocative images not just commodities but meaning laden icons As Sternberg shows foods now appeal through their sensuality and nostalgia houses and stores draw customers through their exoticism people sell their labor through the deliberate performance of the self for the market and tourist destinations offer up carefully crafted thematic experiences Whereas farms factories and information processors once stood at the core of the economy now movie studios do producing the product valued above all meaningful content from which downstream firms acquire the themes that animate desire Now that meaning pervades production Sternberg argues modes of inquiry once reserved for the humanities make sense in the study of the economy Drawing on art history and aesthetics he introduces iconography as a mode of cultural analysis adapted to the study of commercial production Through comparative studies of diverse economic sectors ranging from food processing to tourism Sternberg carries out an iconographic analysis of the new economy This is a provocative study for scholars students and professionals dealing with marketing and consumer research culture and media studies socio economics and economic geography
