Effectiveness of the leadership and management		Good	2
Quality of teaching, learning and assessment		Good	2
Personal development, behaviour and welfare		Good	2
Outcomes for children		Good	2

Summary of key findings for parents

This provision is good

- Staff work effectively with other agencies and professionals to provide support for children who have special educational needs and help them to make good progress.
- Children settle quickly and are eager to go to the pre-school. A well-embedded key-person system plays a large part in underpinning the well-established relationships that exist between staff, parents and children.
- Staff use a range of successful methods to support children who speak English as an additional language. For example, parents who understand the children's home language volunteer to help new parents and children to settle in and build relationships.
- Staff provide a welcoming and stimulating environment where children learn through play and exploration. For example, children use a measuring tape to compare sizes and investigate concepts of bigger or smaller.
- The manager demonstrates her commitment to providing a good-quality service for children. She continuously evaluates the pre-school and gathers information from staff and parents to help her identify what it does well and where to make improvements.

It is not yet outstanding because:

- Occasionally, staff do not make the most of spontaneous opportunities to build on children's learning.
- Key persons do not ensure that they keep all parents fully informed about their children's next steps for learning to help them promote and challenge children's learning at home.

School Choice and Competition: Markets in the Public Interest? Philip Woods,Carl Bagley,Ron Glatter,2005-06-23 This book offers a unique record of the realities of parental choice and competitive pressures on schools On the basis of research involving thousands of parents and eleven secondary schools monitored over several years it sets out empirical findings on parents preferences and experience of choice how schools respond to competitive pressures and local dynamics of quasi markets theoretical implications for understanding quasi markets in education and the public interest implications for educational policy if schools are to be more responsive and inequalities lessened The book provides insights into whether pressures for choice and diversity are in the greater public interest or if they benefit only the few and suggests a notion of the public market as a model for analysing public services School Accountability Great Britain.
