Application and Verification Guide** Department of Education, Washington, DC.,2006 This publication is intended for financial aid administrators and counselors who help students begin the student aid process filing the Free Application for Federal Student Aid FAFSA verifying information and making corrections and other changes to the information reported on the FAFSA This guide contains the following chapters 1 The Application Process FAFSA to ISIR which explains that the laws governing the FSA programs require that a person apply for aid with a form provided by the Department of Education and that no fee be charged for processing it Students can fill out a paper FAFSA or they can apply electronically 2 Filling Out the FAFSA which provides guidance that supplements the application instructions and discusses some of the more difficult questions that may arise 3 Expected Family Contribution EFC which describes the EFC formula in detail 4 Verification which provides a list and discussion of required verification items and 5 Corrections Updates and Adjustments which recognizes that there are situations where the original application information may need to be changed such as when errors need to be corrected when dependency status or household size changes or when an aid administrator makes an adjustment based on professional judgment A Verification Worksheet is included in this document **An Exploration of Financial Aid Application Patterns and College Access** Ellie Marie Bruecker,2021 I explore FAFSA completion within the high school context through a three essay dissertation Each study connects high school level FAFSA completion data from the Federal Student Aid Office to other federal or state datasets that allow for assessment of the impact of a variety of high school characteristics In paper 1 I examine high school level FAFSA completion nationwide investigating the relationships between a variety of school characteristics and FAFSA completion rates I also identify specific equity gaps in FAFSA completion both nationwide and at the state level These findings set a baseline for understanding trends in 12th grade FAFSA completion which do not necessarily mirror the patterns found in prior research using college student unit survey data In paper 2 I evaluate the compliance costs of the FAFSA as an administrative burden and test the efficacy of College Goal Wisconsin s FAFSA assistance events using three event study models I find small but positive associations between weekly FAFSA completion rates and having an event within the school district but this association does not extend to larger geographic areas In paper 3 I investigate the effectiveness of Louisiana s mandatory FAFSA policy on increasing college enrollment using a difference in differences research design In this analysis I consider rational choice theories and sociological cultural and ecological theories of college going which offer possible explanations as to why we might expect a mandatory FAFSA policy to improve college enrollment rates I find positive impacts on college enrollment among schools who had the lowest pre policy FAFSA completion rates when compared to schools with the highest pre policy completion rates However these positive results

appear to be driven by schools with lower proportions of low income students and students of color I find that racial and socioeconomic inequities in college enrollment were maintained or increased into the post policy period Collectively these papers add to the literature on financial aid and the FAFSA by highlighting the important role of school contexts and identifying local state and federal actions that can bolster FAFSA completion and financial aid access **Student Financial Aid Handbook** ,2004 *FAFSA Free Application for Federal Student Aid, 2023-2024, Braille: December 2022 ,2022*
