Giroux, Susan Searls Giroux, 2004-06-24 Higher education is under siege No longer viewed as a public good it is attacked by businesses who want to refashion institutions in the image of the marketplace Higher education is the target of cultural conservatives who have undermined academic freedom and access by deriding the academy as a hotbed of left multicultural radicalism and anti Americanism The historic mission to educate students as citizens motivated by democratic values is overshadowed by profit margins Giroux and Giroux argue that the greatest danger faced by higher education comes from corporatization and educational apartheid If higher education is to meet the challenges of a democratic future it must encourage students to be critical thinkers and citizens as it vouchsafes conditions for educators to produce scholarship in the service of an inclusive democracy Higher Education: A Worldwide Inventory of Centers and Programs , 2007-01-01 The field of higher education studies has expanded dramatically in recent years This book provides a unique and comprehensive guide including an inventory of 199 centers programs and institutes in the field a essay analyzing the emergence and current status of higher education as an area of study and a listing of 191 journals focusing on higher education Together these three resources constitute the more comprehensive overview of the field available anywhere Philip G Altbach's essay Research and training in higher education discusses the origins of the field the central issues of concern in the research literature and trends among centers and institutes focusing on higher education worldwide The inventory which constitutes most of the book provides information on the centers and programs including the names of staff members focus of work and relevant addresses and websites The expansion in the number of journals in the field is illustrated in the journals listing which provides information about editors substantive focus and addresses of journals throughout the world This book is a unique resources and a benchmark for an emerging field **Game Theory** Aviad Heifetz, 2012-05-31 A guide to the fundamentals of game theory for undergraduates and MBA students **The Breakdown of Higher Education** John M. Ellis, 2021-08-10 A series of near riots on campuses aimed at silencing guest speakers has exposed the fact that our universities are no longer devoted to the free exchange of ideas in pursuit of truth But this hostility to free speech is only a symptom of a deeper problem writes John Ellis Having watched the deterioration of academia up close for the past fifty years Ellis locates the core of the problem in a change in the composition of the faculty during this time from mildly left leaning to almost exclusively leftist He explains how astonishing

historical luck led to the success of a plan first devised by a small group of activists to use college campuses to promote radical politics and why laws and regulations designed to prevent the politicizing of higher education proved insufficient Ellis shows that political motivation is always destructive of higher learning Even science and technology departments are not immune The corruption of universities by radical politics also does wider damage to primary and secondary education to race relations to preparation for the workplace and to the political and social fabric of the nation Commonly suggested remedies new free speech rules or enforced right of center appointments will fail because they don t touch the core problem a controlling faculty majority of political activists with no real interest in scholarship This book proposes more drastic and effective reform measures The first step is for Americans to recognize that vast sums of public money intended for education are being diverted to a political agenda and to demand that this fraud be stopped **Higher Ground** Carolyn S.

Briggs,2011-09-16 A riveting memoir of one woman s immersion into fundamentalist faith and her decision twenty years later to leave it all behind Beautifully written and powerfully told this memoir is a fascinating look at the nature of faith and the inspiring story of one woman s struggle to find her place in the world Originally published as *This Dark World* this book has been adapted into the screenplay *Higher Ground* now a film directed by and starring Vera Farmiga Carolyn Briggs grew up with modest means in the Iowa Heartland Pregnant at seventeen and married to her musician boyfriend by the age of eighteen she found herself with little hope for the future Until an unexpected encounter with the Divine Soon she had immersed herself into a close knit and patriarchal New Testament church But as Carolyn began to realize that her religion left little room for what she wanted out of life as a mother as a wife as an intellectually curious woman cracks began to appear in her all encompassing sense of faith and slowly she began to question the religion that had given her hope **SMP**

GCSE Interact 2-tier Higher 2 Practice Book School Mathematics Project,2008-02-07 An exciting series for the AQA Edexcel and OCR mathematics specifications *Faith, Freedom, and Higher Education* P. C. Kemeny,2013-03-11 While debates abound today over the cost purpose and effectiveness of higher education often lost in this conversation is a critical question Should higher education attempt to shape students moral and spiritual character in any systematic manner as in the past or focus upon equipping students with mere technical knowledge *Faith Freedom and Higher Education* argues that Christianity can still play an important role in contemporary American higher education George M Marsden D G Hart and George H Nash among its authors analyze the debate over the secularization of the university and the impact of liberal Protestantism and fundamentalism on the American academy during the twentieth century Contributors also assess how the ideas of Dorothy Sayers C S Lewis Wendell Berry and Allan Bloom can be used to improve Christian higher education Finally the volume examines the contributions Christian faith can make to collegiate education and outlines how Christian institutions can preserve their religious mission while striving for academic excellence *Thinking and Rethinking the University* Ronald Barnett,2014-11-27 In the World Library of Educationalists series international scholars compile career

long selections of what they judge to be among their finest pieces so the world has access to them in a single manageable volume Readers are able to follow the themes and strands and see how their work contributes to the development of the field Over more than three decades Professor Ronald Barnett has acquired a distinctive position as a leading philosopher of the university and higher education and this volume brings together 15 of his key writings particularly papers from leading journals This volume also includes as his introductory chapter an intellectual autobiography in which Professor Barnett recounts the history of his scholarship and writing traces its development across five stages and identifies the themes and sources of inspiration that lie within his corpus of work Ronald Barnett has described his corpus of work as a social philosophy of the university that is at once conceptual critical practical and imaginative His concepts of criticality critical interdisciplinarity supercomplexity and the ecological university have been taken up in the literature across the world Through telling examples and with an incisive clarity of writing Ronald Barnett s scholarship has helped to illuminate in fresh ways and reorient practices in the university and in higher education The chapters in this volume reveal all of these qualities so making this volume a compelling overview of a passionate and yet constructive critic of the university

Non-University Higher Education Holly Henderson, 2020-11-26 What does local mean when it describes a student or an institution of higher education Holly Henderson explores this question by telling the story of students studying undergraduate degrees outside of the university at colleges that offer degree courses but do not have university status Because the students live at home while studying and because the institutions themselves are seen to cater for a local rather than global student population these are local students studying local higher education Importantly the students are also studying in localities without a history of higher education provision where the possibility of living in this place and studying for a degree is relatively new The book takes an in depth approach to exploring how relationships to these places affect educational experience how decisions are made about whether to leave or to stay for degree study and what it means to be an undergraduate student who does not attend a university As well as working against the easy assumptions to be made about the lives and characteristics of a surprisingly diverse and complex group of students the book offers insights into the ways that place and space are crucial and often overlooked factors for anyone thinking about systemic and structural inequality in higher education
