 Natural History completed in 79 A D Pliny the Elder alludes to Quintus Pedius the deaf son of a Roman consul who had to
 seek permission from Caesar Augustus to pursue his training as an artist During the Renaissance scores of deaf people
 achieved fame throughout Europe and by the middle of the 17th century the talents and communication systems of deaf
 people were being studied by a variety of noted scientists and philosophers However the role of deaf people in society has
 always been hotly debated could they be educated Should they be educated If so how How does Deaf culture exist within
 larger communities What do advances in the technology and the genetics of hearing loss portend for Deaf communities In
 this landmark volume a wide range of international experts present a comprehensive and accessible overview of the diverse
 field of deaf studies language and education Pairing practical information with detailed analyses of what works why and for
 whom and banishing the paternalism once intrinsic to the field the handbook consists of specially commissioned essays on
 topics such as language and language development hearing and speech perception education literacy cognition and the

complex cultural social and psychological issues associated with individuals who are deaf or hard of hearing Through careful planning collaboration and editing the various topics are interwoven in a manner that allows the reader to understand the current status of research in the field and recognize the opportunities and challenges that lie ahead providing the most comprehensive reference resource on deaf issues Written to be accessible to students and practitioners as well as researchers The Oxford Handbook of Deaf Studies Language and Education is a uniquely ambitious work that will alter both theoretical and applied landscapes It surveys a field that has grown dramatically over the past 40 years since sign languages were first recognized by scientists to be true languages From work on the linguistics of sign language and parent child interactions to analyses of school placement and the mapping of brain function in deaf individuals research across a wide range of disciplines has greatly expanded not just our knowledge of deafness and the deaf but of the very origins of language social interaction and thinking Bringing together historical information research and strategies for teaching and service provision Marc Marschark and Patricia Elizabeth Spencer have given us what is certain to become the benchmark reference in the field

Oxford Handbook of Deaf Studies, Language, and Education Marc Marschark, Patricia Elizabeth Spencer, 2005 This title is a major professional reference work in the field of deafness research It covers all important aspects of deaf studies language social psychological issues neuropsychology culture technology and education
