## **How To Ask Someone To Be On Your Thesis Committee:**

*How to Write a BA Thesis, Second Edition* Charles Lipson, 2018-12-05 *How to Write a BA Thesis* is the only book that directly addresses the needs of undergraduate students writing a major paper. This book offers step by step advice on how to move from early ideas to finished paper. It covers choosing a topic, selecting an advisor, writing a proposal, conducting research, developing an argument, writing and editing the thesis, and making through a defense. Lipson also acknowledges the challenges that arise when tackling such a project and he offers advice for breaking through writer's block and juggling school life demands. This is a must read for anyone writing a BA thesis or for anyone who advises these students. **Grad**

**School Life** Jacqueline M. Kory-Westlund, 2024-04-02 Grad school isn't easy. It's even less easy when you're also managing a second job, a family, or depression, or when you are a first generation student or if you come from an underrepresented group or a lower socioeconomic status background. Grad students are overworked, overstressed, and over it. Most grad school advice books focus on the professional side: finding funding, managing research and teaching, and applying for academic jobs. But students today face a difficult job market. Only a handful will obtain coveted tenure track professorships, so they need alternative career prep. Plus, grad school is only one part of your life. And with an average age of 33 years, today's students are juggling far more than school. That's where this book comes in. It will help you keep up a personal life, make the most of your time, and prepare for your career, whether in academia or beyond. This pragmatic book explains how to persevere through the grad school long haul, covering challenges both on and off campus. It shares candid, specific advice on personal finances, mental health, setting your own learning and career goals, maintaining friendships and relationships, and more. Peppy, sensible, and smart, *Grad School Life* points out the pitfalls of academia and helps you build the life you want. With fresh insights, concrete suggestions, and exercises, and helpful lists of resources, this book gives grad students a new roadmap for not only surviving but thriving both in school and in the real world. **Developing a Mixed Methods Proposal** Jessica T.

DeCuir-Gunby, Paul A. Schutz, 2016-08-23 *Developing a Mixed Methods Proposal* by Jessica T. DeCuir Gunby and Paul A. Schutz is a practical, hands-on guide that helps beginning researchers create a mixed methods research proposal for their dissertations, grants, or general research studies. The book intertwines descriptions of the components of a research proposal (introduction, literature review, research methods, etc.) with discussions of the essential elements and steps of mixed methods research. Examples from a real-world interdisciplinary mixed methods research study demonstrate concepts in action throughout the book, and an entire sample proposal appears at the end, giving readers insight into every step up to completion. Readers who complete the exercises in each chapter will have an individualized, detailed template for their own mixed methods research proposal. *Developing a Mixed Methods Proposal* is Volume 5 in the SAGE Mixed Methods Research Series. **Student Research and Report Writing** Gabe T. Wang, Keumjae Park, 2015-11-25 This is an invaluable, concise, all-in-one guide for carrying out student research and writing a paper, adaptable to course use and suitable for use by students.

independently it successfully guides students along every step of the way Allows students to better manage their research projects Exercises and worksheets break down the research process into small steps and walk students through each stage of the research project Offers real world and lively examples that are attractive and relevant to students Based on twenty years of experience in teaching research techniques to students in a way that avoids the methodology overkill from encyclopaedic and intimidating textbooks Accompanying website includes powerpoint lecture slides for instructors and helpful links to video resources for student Visit [www.wiley.com/go/wangresearchreportwriting](http://www.wiley.com/go/wangresearchreportwriting)
