Photography, Reconstruction and the Cultural History of the Postwar European City Tom Allbeson, 2020-11-16 Examining imagery of urban space in Britain France and West Germany up to the early 1960s this book reveals how photography shaped individual architectural projects and national rebuilding efforts alike Exploring the impact of urban photography at a pivotal moment in contemporary European architecture and culture this book addresses case studies spanning the destruction of the war to the modernizing reconfiguration of city spaces including ruin photobooks about bombed cities architectural photography of housing projects and imagery of urban life from popular photomagazines as well as internationally renowned projects like UNESCO s Paris Headquarters Coventry Cathedral and Berlin s Gedächtniskirche This book reveals that the ways of seeing shaped in the postwar years by urban photography were a vital aspect of not only discourses on the postwar city but also debates central to popular culture from commemoration and modernization to democratization and Europeanization This book will be a fascinating read for researchers in the fields of photography and visual studies architectural and urban history and cultural memory and contemporary European history Histoire du théâtre en France L.P. de Julleville, Congo 1965 Jules Gerard-Libois, Benoit Verhaegen, 2015-12-08 This seventh volume in the annual series of Congolese documents compiled by the Centre de Recherche et d'Information Socio Politiques in Brussels consists of official statements and memoranda proceedings of conferences etc In French with an English introduction by Herbert Weiss Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **L'Apocalypse des animaux (1 Hen 85-90): une propagande militaire?** Daniel Assefa, 2007-09-30 For the majority of scholars the Animal Apocalypse is a militant text a piece of pro Maccabean propaganda This text however develops theological reflections that are distinctly different from a justification of an armed struggle Its themes are even incompatible with the Maccabean movement It is impossible to condemn the Second Temple and at the same time mobilise people for a fight in order to purify that very Temple After dealing with text critical issues this work challenges the thesis that the text is military propaganda through the use of narrative and historical approaches The analyses besides proposing a new way of studying an apocalypse spell out the peculiarity and the significance of the theology of the Animal Apocalypse in connection with the biblical history of Israel and the theology of the Qumran community The Origins of Gnosticism / Le origini dello gnosticismo Bianchi, 1970-06-01
