Vision J.R. Miller, 1996-05-24 With the growing strength of minority voices in recent decades has come much impassioned discussion of residential schools the institutions where attendance by Native children was compulsory as recently as the 1960s Former students have come forward in increasing numbers to describe the psychological and physical abuse they suffered in these schools and many view the system as an experiment in cultural genocide In this first comprehensive history of these institutions J R Miller explores the motives of all three agents in the story He looks at the separate experiences and agendas of the government officials who authorized the schools the missionaries who taught in them and the students who attended them Starting with the foundations of residential schooling in seventeenth century New France Miller traces the modern version of the institution that was created in the 1880s and finally describes the phasing out of the schools in the 1960s He looks at instruction work and recreation care and abuse and the growing resistance to the system on the part of students and their families Based on extensive interviews as well as archival research Miller s history is particularly rich in Native accounts of the school system This book is an absolute first in its comprehensive treatment of this subject J R Miller has written a new chapter in the history of relations between indigenous and immigrant peoples in Canada Co winner of the

111-1 Hearings ,2009 **Negotiating the Livelihoods of Children and Youth in Africa's Urban Spaces** Michael Bourdillon,2012-09-28 This book deals with problems facing children and youth in African cities today African populations have high growth rates and consequently relatively high proportions of young people Population growth in rural areas has stretched resources leading to urban migration and a rapid growth of cities Economies have not grown apace with the population and in some countries economies have even shrunk The result is a severe lack of resources in cities to meet the needs of the growing populations shown in high unemployment inadequate housing poor services and often extreme poverty All the essays in this book draw attention to such urban environments in which children and youth have to live and survive The title of this book speaks of negotiating livelihoods The concept of livelihood has been adopted to incorporate the social and physical environment together with people s responses to it It considers not only material but also human and social resources including local knowledge and understanding It thus considers the material means for living in a broader context of social and cultural interpretation It therefore does not deal only with material and economic existence but also with leisure activities entertainments and other social forms of life developed by young people in response to the dictates of the environment The book contains country specific case studies of the problems faced by youths in many African cities how they develop means to solve them and the various creative ways through which they improve their status both economically and socially in the different urban spaces It recognizes the potentials of young people in taking control of their lives within the constraints imposed upon them by the society This book is a valuable contribution to the field of child and youth development and a useful tool for parents teachers academics researchers as well as government and non government development agencies **Federal Assistance for Educating Children in Localities Affected by Federal Activities** ,1950 Red Ink Drew Lopezina,2012-03-01 The Native peoples of colonial New England were quick to grasp the practical functions of Western literacy Their written literary output was composed to suit their own needs and expressed views often in resistance to the agendas of the European colonists they were confronted with Red Ink is an engaging retelling of American colonial history one that draws on documents that have received scant critical and scholarly attention to offer an important new interpretation grounded in indigenous contexts and perspectives Author Drew Lopezina reexamines a literature that has been compulsively corrected and overinscribed with the norms and expectations of the dominant culture while simultaneously invoking the often violent tensions of contact and the processes of unwitnessing by which Native histories and accomplishments were effectively erased from the colonial record In a compelling narrative arc Lopezina enables the reader to travel through a history that however familiar has never been fully appreciated or understood from a Native centered perspective The Revised Reports ,1900 The Revised Reports Frederick Pollock,Robert Campbell,Oliver Augustus Saunders,Arthur Beresford Cane,Edward Potton,Joseph Gerald Pease,William Bowstead,1900 **Children of Aataentsic** Bruce G. Trigger,1988-09-01 Trigger s work integrates insights from archaeology history ethnology linguistics and geography

This wide knowledge allows him to show that far from being a static prehistoric society quickly torn apart by European contact and the fur trade almost every facet of Iroquoian culture had undergone significant change in the centuries preceding European contact He argues convincingly that the European impact upon native cultures cannot be correctly assessed unless the nature and extent of precontact change is understood His study not only stands Euro American stereotypes and fictions on their heads but forcefully and consistently interprets European and Indian actions thoughts and motives from the perspective of the Huron culture The Children of Aataentsic revises widely accepted interpretations of Indian behaviour and challenges cherished myths about the actions of some celebrated Europeans during the heroic age of Canadian history In a new preface Trigger describes and evaluates contemporary controversies over the ethnohistory of eastern Canada

The Solidarity of Kin Kenneth M. Morrison,2012-02-01 Arguing that Native Americans religious life and history have been misinterpreted author Kenneth M Morrison reconstructs the Eastern Algonkians world views and demonstrates the indigenous modes of rationality that shaped not only their encounter with the French but also their self directed process of religious change In reassessing controversial anthropological historical and ethnohistorical scholarship Morrison develops interpretive strategies that are more responsive to the religious world views of the Eastern Algonkian peoples He concludes that the Eastern Algonkians did not convert to Catholicism but rather applied traditional knowledge and values to achieve a pragmatic and critical sense of Christianity and to preserve and extend kinship solidarity into the future The result was a remarkable intersection of Eastern Algonkian and missionary cosmologies
