Le Monde 1944 1994:

Le journal Le monde Patrick Eveno, 2001 Jusqu'à la fin des années 1970 les lecteurs ont assuré la rentabilité de l'entreprise du journal Le Monde L'indépendance et la qualité de l'information au service des lecteurs avaient engendré la rentabilité de l'entreprise qui son tour garantissait l'indépendance de la rédaction Mais cette équation a été trivialisée et de nouvelles solutions ont été inventées qui sont présentées ici

, Badiou Peter Hallward, 2003 *Beckett and Badiou* Andrew Gibson, 2007-01-11 Beckett and Badiou offers a provocative new reading of Samuel Beckett's work on the basis of a full critical account of the thought of Alain Badiou Badiou is the most eminent of contemporary French philosophers His devotion to Beckett's work has been lifelong Yet for Badiou philosophy must be integrally affirmative whilst Beckett apparently commits his art to a work of negation Beckett and Badiou explores the coherences contradictions and extreme complexities of the intellectual relationship between the two oeuvres It examines Badiou's philosophy of being the event truth and the subject and the importance of mathematics within his system It considers the major features of his politics ethics and aesthetics and provides an explanation interpretation critique and radical revision of his work on Beckett It argues that once revised Badiou's version of Beckett offers an extraordinarily powerful tool for understanding his work Badiou and Beckett are instances of a vestigial or melancholic modernism that is in the teeth of a contemporary culture that dreams ever more ambitiously of plenitude they commit themselves to a rigorous concept of limit and intermittency Truth and value are occasional and rare It is seldom that the chance event arrives to disturb the inertia of the world For Badiou however it is the event and its consequences alone that matter Beckett rather insists on the common experience of intermittency as destitution His art is a series of limit figures exquisitely subtle and nuanced forms for a world whose state of seemingly rigid paralysis is also always volatile delicately balanced

Ethics Alain Badiou, 2014-06-10 Ethical questions dominate current political and academic agendas While government think tanks ponder the dilemmas of bio ethics medical ethics and professional ethics respect for human rights and reverence for the Other have become matters of broad consensus Alain Badiou one of the most powerful voices in contemporary French philosophy explodes the facile assumptions behind this recent ethical turn He shows how our prevailing ethical principles serve ultimately to reinforce an ideology of the status quo and fail to provide a framework for an effective understanding of the concept of evil In contrast Badiou summons up an ethic of truths which is designed both to sustain and inspire a disciplined subjective adherence to a militant cause be it political or scientific artistic or romantic and to discern a finely demarcated zone of application for the concept of evil He defends an effectively super human integrity over the respect for merely human rights asserts a partisan universality over the negotiation of merely particular interests and appeals to an immortal value beyond the protection of mortal privileges

The Missing Italian Nuremberg M. Battini, 2007-08-20 This book explores how the trial of the entire military command of the Nazi power structure in Italy prepared by the Allies following the Nuremberg mode came to be replaced by a few contradictory trials of very minor significance This resulted in an enormous historical misrepresentation of the Nazi occupation of Italy

Think Again Peter Hallward, 2004-05-01 Slavoj Žižek is not alone in thinking that Alain Badiou's recent work is the event of contemporary philosophy Think Again the first publication of its kind goes a long way towards justifying his assessment Badiou is nothing if not polemical and the most suitable way to approach his philosophy is precisely through the controversies it creates This book which opens with an introduction aimed at readers new to Badiou's work presents a range of essays which explore Badiou's most contentious claims in the fields of ontology politics ethics and aesthetics Alain Badiou has devised perhaps the only truly inventive philosophy of the subject since Sartre Almost alone among his peers Badiou's work promises a genuine renewal of philosophy a subject he sees as conditioned by innovation in spheres ranging from radical politics to artistic experimentation to mathematical formalization Slavoj Žižek is not alone in thinking that Alain Badiou's recent work is the event of contemporary philosophy Think Again the first publication of its kind goes a long way towards justifying his assessment Badiou is nothing if not polemical and the most suitable way to approach his philosophy is precisely through the controversies it creates This book which opens with an introduction aimed at readers new to Badiou's work presents a range of essays which explore Badiou's most contentious claims in the fields of ontology politics ethics and aesthetics

The Spiral of "Anti-Other Rhetoric" Elisabeth Le, 2006-08-22 How do media inform our representations of the Other and how does this influence intercultural international relations While officially dialogues between different national societies are conducted by diplomats in bilateral and multilateral settings in practice journalists also participate every day in such dialogues through the phenomenon of the international media echo in which they report on each other's societies Until now media have only been investigated for their potential role in the foreign policy of specific states In a case study involving media in three national cultures and languages French American and Russian this book presents an interdisciplinary framework that combines quantitative and qualitative analyses for the study of the international media echo in an intercultural international relations perspective In particular the

fundamental functioning of spirals of anti Other rhetoric i e media wars is examined in a Critical Discourse Analysis approach completed with Social Identity Theory and International Relations theories *The War We Won Apart* Nahlah

Ayed,2025-09-02 INSTANT 1 NATIONAL BESTSELLER Love betrayal and a secret war the untold story of two elite agents one Canadian one British who became one of the most decorated couples of WWII On opposite sides of the pond Sonia Butt an adventurous young British woman and Guy d Artois a French Canadian soldier and thunderstorm of a man are preparing for war From different worlds their lives first intersect during clandestine training to become agents with Winston Churchill s secret army the Special Operations Executive As the world s deadliest conflict to date unfolds Sonia and Guy learn how to parachute into enemy territory how to kill blow up rail lines and eventually how to love each other But not long after their hasty marriage their love is tested by separation by a titanic invasion and by indiscretion Writing in vivid heart stopping prose Ayed follows Sonia as she plunges into Nazi occupied France and slinks into black market restaurants to throw off occupying Nazi forces while at the same time participating in sabotage operations against them and as Guy in another corner of France trains hundreds into a resistance army Reconstructed from hours of unpublished interviews and hundreds of archival and personal documents the story Ayed tells is about the ravaging costs of war paid for disproportionately by the young But more than anything *The War We Won Apart* is a story about love two secret agents who were supposed to land in enemy territory together but were fated to fight the war apart **Dilemmas of Truth in Alain Badiou's Philosophy**

Giosuè Ghisalberty,2023-01-25 This book on Alain Badiou s philosophy begins with a central theme the attempt to trace how Badiou has replaced the tradition of critical theory and negation with an affirmative support of his four generic procedures art science love and art as inseparable from his revitalization of both the subject and the concept of truth By defining four procedures as conditions of philosophy Badiou makes the attempt to establish each as inter related and systematically necessary to make a new proposal for thought The fidelity to Badiou s project for the 21st century however requires a fundamental examination are his four truths complicated by an inescapable dilemma And if so can the four truths be retained as a whole or does the individual reader have to make a decision that will alter Badiou s project and conclusions By presenting the dilemmas of his thought the scholarly reader will be in a position to then pursue the necessary study to come to their own conclusions and by doing so become sufficiently free to resist the many coercions of social and political life in liberal democracies today **The Destruction of Art** Dario Gamboni,2013-06-01 Last winter a man tried to break Marcel

Duchamp s Fountain sculpture The sculpted foot of Michelangelo s David was damaged in 1991 by a purportedly mentally ill artist With each incident intellectuals must confront the unsettling dynamic between destruction and art Renowned art historian Dario Gamboni is the first to tackle this weighty issue in depth exploring specters of censorship iconoclasm and vandalism that surround such acts Gamboni uncovers here a disquieting phenomenon that still thrives today worldwide As he demonstrates through analyses of incidents occurring in nineteenth and twentieth century America and Europe a complex

relationship exists among the evolution of modern art destruction of artworks and the long history of iconoclasm From the controversial removal of Richard Serra's Tilted Arc from New York City's Federal Plaza to suffragette protests at London's National Gallery Gamboni probes the concept of artist's rights the power of political protest and how iconoclasm sheds light on society's relationship to art and material culture Compelling and thought provoking *The Destruction of Art* forces us to rethink the ways that we interact with art and react to its power to shock or subdue *Jews and Gender in Liberation France* K. H. Adler, 2003-08-07 This book takes a new look at occupied and liberated France through the dual prism of race specifically Jewishness and gender core components of Vichy ideology The imagining of liberation and the potential post Vichy state lay at the heart of resistance strategy Their transformation into policy at liberation forms the basis of an enquiry that reveals a society which while split deeply at the political level found considerable agreement over questions of race the family and gender This is explained through a new analysis of republican assimilation which insists that gender was as important a factor as nationality or ethnicity A new concept of the long liberation provides a framework for understanding the continuing influence of the liberation in post war France where scientific planning came to the fore but whose exponents were profoundly imbued with reductive beliefs about Jews and women that were familiar during Vichy *God's Eugenicist* Andrés Horacio Reggiani, 2007 The temptations of a new genetically informed eugenics and of a revived faith based world wide political stance this study of the interaction of science religion politics and the culture of celebrity in twentieth century Europe and America offers a fascinating and important contribution to the history of this movement The author looks at the career of French born physician and Nobel Prize winner Alexis Carrel 1873 1944 as a way of understanding the popularization of eugenics through religious faith scientific expertise cultural despair and right wing politics in the 1930s and 1940s Carrel was among the most prestigious experimental surgeons of his time who also held deeply illiberal views In *Man the Unknown* 1935 he endorsed fascism and called for the elimination of the unfit The book became a huge international success largely thanks to its promotion by Readers Digest as well as by the author's friendship with Charles Lindbergh In 1941 he went into the service of the French pro German regime of Vichy which appointed him to head an institution of eugenics research His influence was remarkable affecting radical Islamic groups as well Le Pen's Front National that celebrated him as the founder of ecology *Consecratio Mundi: festschrift em homenagem a Urbano Zilles* ,
