Marine Corps Planning Process MCWP 5-10 (Formerly MCWP 5-1) United States Marine Corps, 2020-02-14 Marine Corps Warfare Publication MCWP 5 10 Formerly MCWP 5 1 Marine Corps Planning Process 2 May 2016 Marine Corps Warfighting Publication MCWP 5 1 Marine Corps Planning Process was first published in January 2000 Since that time the planning process has been used by Marine Corps forces at all echelons of command to conduct a range of military operations The planning associated with these diverse operations has demonstrated the fundamental soundness of the process Practical application has also revealed that portions of the planning process and MCWP 5 1 require clarification or elaboration to enhance comprehension and utility Among these design has emerged as a term requiring further emphasis A fundamental responsibility of command design is present not only in planning but also throughout the planning execution assessment continuum This publication emphasizes the importance of understanding the problem the environment the enemy and the purpose of an operation This awareness is fundamental to the first step in planning formerly named mission analysis and has accordingly been renamed problem framing to better convey its purpose and importance Moreover the publication includes a discussion of battlespace centers of gravity commander's intent and commander's critical information requirements as part of design versus its former heading of commander's battlespace area evaluation Notice This is a paperback book version of the Marine Corps Warfare Publication MCWP 5 10 Formerly MCWP 5 1 Marine Corps Planning Process 2 May 2016 Full version All Chapters included This publication current update is available Electronic version in the official website of the United States Marines Corps This book is properly formatted and printed as a perfect sized copy 8 5x11 The version of this publication is as described above this article is updated after each new edition disclaimer The use or appearance of United States Marine Corps publications on a non Federal Government website does not imply or constitute Marine Corps endorsement of the distribution service *Marine Corps Warfighting Publication MCWP 5-10 Marine Corps Planning Process August 2020* United States Government Us Marine Corps, 2020-09 This United States Marine Corps manual Marine Corps Warfighting Publication MCWP 5 10 Marine Corps Planning Process August 2020 was first published in January 2000 as MCWP 5 1 Since that time Marine Corps forces at all echelons of command have used the Marine Corps Planning Process MCPP to conduct the range of military operations The use of design over the last decade suggests that design is more than conceptual planning which establishes aims objectives and intentions A more critical role of design is to promote understanding of the current situation as a basis for broad solutions While design establishes the nature of the problem the inclusion of a design methodology in this revision aids commanders staffs and planners in determining the problem set and a framework for solving them The publication's design methodology reflects a belief that sufficient complexity can exist at all levels of warfare and across the conflict continuum to include tactical situations that will require an understanding of the set of problems that hinder movement from the current state to the desired state of an operational environment Among all

critical factors bearing on military operations time is defining The MCPP helps Marines win the time fight through a promotion of intuitive understanding commander s intent and the use of task and purpose when operating inside an established paradigm Another time aid is the center of gravity techniques used to determine which of the actions that address a problem set will be decisive These visions of decisiveness inform the convergence of combat power through main and supporting efforts and resource priorities The publication focuses primarily on commanders with staffs however any Marine required to plan operations should know the planning process well enough to determine the problem envision a desired state and develop options for achieving that state This publication supersedes MCWP 5 10 Marine Corps Planning Process dated 24 August 2010 MCWP 5 10 implements North Atlantic Treaty Organization NATO Standardization Agreement STANAG 2014 NATO Formats for Orders and Designation of Timing Locations and Boundaries Marine Corps Planning Process United States Marine Corps, 2010 *Marine Corps Warfare Publication MCWP 5-10 (Formerly MCWP 5-1) Marine Corps Planning Process 2 May 2016* United States Government US Marine Corps, 2016-12-02 Marine Corps Warfare Publication MCWP 5 10 Formerly MCWP 5 1 Marine Corps Planning Process 2 May 2016 was first published in January 2000 Since that time the planning process has been used by Marine Corps forces at all echelons of command to conduct a range of military operations The planning associated with these diverse operations has demonstrated the fundamental soundness of the process Practical application has also revealed that portions of the planning process and MCWP 5 1 require clarification or elaboration to enhance comprehension and utility Among these design has emerged as a term requiring further emphasis A fundamental responsibility of command design is present not only in planning but also throughout the planning execution assessment continuum This publication emphasizes the importance of understanding the problem the environment the enemy and the purpose of an operation This awareness is fundamental to the first step in planning formerly named mission analysis and has accordingly been renamed problem framing to better convey its purpose and importance Moreover the publication includes a discussion of battlespace centers of gravity commander s intent and commander s critical information requirements as part of design versus its former heading of commander s battlespace area evaluation Marine Corps Planning Process also clarifies the distinction between intent and guidance Intent describes the purpose of the action being directed and an idea of its end state The intent promotes subordinate initiative that is consistent with the higher commander s aims when the task assigned is no longer appropriate for the situation Constructs such as method are forms of guidance that may be transitory Appendix J and K to Marine Corps Warfighting Publications 5-1 (MCWP 5-1), Marine Corps Planning Process (MCPP) the Accelerated Marine Corps Planning Process (AMCPP) and Rehearsal Types, Techniques, and Considerations, 2002 The Marine Corps Warfighting Publication 5 1 MCWP 5 1 was published in January 2000 and is the principle planning manual in the Marine Corps However the new process is directed at too high of a level to be the principle planning doctrine for the lower level units Therefore I have developed two appendices to the MCWP 5 1 to improve the document s relevance to

the regimental and battalion level The two appendices are The Accelerated Marine Corps Planning Process AMCPP and Rehearsal Types Techniques and Considerations The AMCPP is a technique for scaling MCPP to operationally realistic time constraints However it is not just doing MCPP fast The AMCPP hinges on the commander with the advice of his staff making a decision very early in the process then improving the decision with the remainder of the process The end result is a solid and flexible plan that can be executed rapidly At the regimental and battalion level rehearsals are the key to achieving an implicit understanding of the plan and improving the probability for success However this portion of the planning process is often squandered due to poor rehearsal technique or failure to target the rehearsal to the appropriate audience Therefore this appendix offers several rehearsal techniques and planning considerations that if adopted will enhance the doctrinal instructions in this area

U.S. Marines and Irregular Warfare Nicholas J. Schlosser,2015 U S Marines in Irregular Warfare Training and Education is a brief history that recounts how the U S Marine Corps adapted to fight the Global War on Terrorism during 2000 10 The Marine Corps has a long history of fighting irregular wars including the Banana Wars in Central America during the 1920s and the Vietnam War during the 1960s To battle the insurgencies in Iraq and Afghanistan the Corps drew upon this experience while also implementing new plans and programs to better prepare Marines to carry out counterinsurgency operations The Marine Corps updated the curriculum at the Command and

Staff College and transformed the annual Combined Arms Exercise into Exercise Mojave Viper an immersive training program that simulated the urban environments in which Marines would be operating in Southwest Asia Most importantly Marines adjusted in the field as battalion and company commanders drew on their basic training and education to devise innovative tactics to better combat the new threats they now faced as this story shows the Marine Corps did not undergo a radical transformation to fight in Iraq and Afghanistan but instead drew on principles that had defined it as a warfighting organization throughout most of its history Keywords United States Marine Corps United States Marines U S Marine Corps U S Marines Marines Marine Corps Global War on Terrorism global war on terrorism irregular warfare military strategy counterinsurgency combat iraq war Iraq War Afghanistan military education soldier training combat training and tactics Southwest Asia
