| Accessories Furnished: | 315 Start Filter 312A Stand Clamp |
| Optional Accessories: | PS-8 Battery Supply 307 Shock Mount 340 Security Clamp 315A Windscreen |

DESCRIPTION & APPLICATIONS

The Electro-Voice Model CS15 is a professional remotely powerable electret condenser cardioid microphone designed especially for recording, broadcast and sound reinforcement applications where the smooth, wide range response of a studio microphone is desired. The machined steel case and rugged internal design enable the CS15 to withstand abuse.

The CS15, being a true cardioid microphone, offers greatest rejection at 180° off-axis, directly to the rear of the microphone. Like all other condenser cardioid microphones, the CS15 is a single "D" cardioid. Due to the proximity effect in all single "D" cardioids, the low frequency response of the CS15 is dependent upon the distance from the sound source to the microphone as illustrated in Fig. 2.

Maximum bass response is produced in close-up use with the microphone one quarter inch from the sound source (Fig. 2A). Minimum bass response is experienced at distances greater than 24" (610mm) (Fig. 2C). By working closer to the microphone than might otherwise be natural, the human voice will sound more robust, although intelligibility may be adversely affected.
