School library media specialists are now considered part of the teaching staff and are charged with integrating their library and information skills curriculum with the more general classroom curriculum. At the same time, more and more special needs students are part of every school and every classroom. Thus, the media specialist must work effectively with special needs students on a regular basis to develop their information skills and must also serve as a resource to classroom teachers. This professional reference offers practical information to school library media specialists on how to serve special needs students and their classroom teachers effectively. The first part of the book highlights the teaching role of the media specialist and discusses how and what to teach special needs students. The second part views the media specialist as an information expert who must structure the library and its resources for students with special needs. The third section treats the media specialist's role as a professional who must collaborate with other teachers.

This sixth edition of *Library Unlimited's* classic school library management text describes new approaches to management and addresses the realities that school librarians face in today's quickly evolving information-based world. In recent years, nearly all school libraries and school librarians have been targeted for having their funding or staffing cut as a result of reductions in school budgets. How does a newly graduated LIS professional prepare for a career in this volatile environment? How do established librarians and administrators prove their value and necessity to decision makers? This freshly updated edition of *The School Library Manager* is an invaluable textbook that leads readers through the many essential management tasks and skills required to administer the successful school library program and beyond. It promotes the leadership role of the school librarian in the school and addresses the need for school librarians to provide students with equal access to information. The information presented will not only enable librarians to keep their jobs but also supply specific guidance and inspiration that gives readers the ability to make their positions and libraries undeniably relevant and valuable and to ensure a path of upward mobility in their LIS careers.
