Ellis Esler World History:

World History Elisabeth Gaynor Ellis, Anthony Esler, 2012-04-01 WORLD HISTORY (TEACHERS EDITION) (PRENTICE HALL) ELLIS ESLER, 2009-01-01 World History Elisabeth Gaynor Ellis, 1999 **California World History : The Modern World** Elisabeth Gaynor Ellis, Anthony Esler, 2019 World History Interactive Elisabeth Gaynor Ellis, Anthony Esler, 2022 **The Patchwork of World History in Texas High Schools** Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States **Teaching Global History** Alan J. Singer, 2019-10-28 This updated edition of Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why This essential text explains how to organize curriculum around broad social studies concepts and themes as well as student questions about humanity history and the contemporary world All chapters feature lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps This new edition includes connections to the C3 framework updates throughout to account for the many shifts in global politics and a new chapter connecting past to present through current events and historical studies in ways that engage students and propel civic activism Offering an alternative to pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate on what the global history curriculum should be and how to teach it
