syntax This reproduction of Visser's volumes is more than welcome and timely as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate Having a searchable and easy to use online version although maybe not perfect available now means a revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance

New Americans Glen A. Love, 1982 A study of the fiction of five early modern novelists Frank Norris Hamlin Garland Willa Cather Sherwood Anderson and Sinclair Lewis who reflect the conflicting values of a western past and an urban industrial present

Catholicism and the Modern Mind Michael Williams, 1928 *The Church Event* Vitor Westhelle, Is the church dying Noted theologian Vitor Westhelle urges an emphatic no and traces the church crisis to an ecclesiological deficit a lack of serious reflection on the real role of church as an ideal community and an institutional reality He finds real consensus among the Reformers on what church should mean and he traces the competing historical notions of church their relations to the sources of Protestant religious conviction and the gradual erosion of a sense for what it is the church actually represents

Evangelicals and the Arts in Fiction John Weaver, 2013-04-19 This book is an exploration of how the relationship of evangelicals to the arts has been portrayed in fiction for the last century The author argues that evangelicals are consistently seen as enemies of the arts by non evangelical writers The artist typically represented by a literal artist occasionally by a scientist or reluctant messiah typically has to fight for liberation from such cliched character types as the failed evangelical artist the rube or the hypocritical pastor Rather than resist the cliché of anti art evangelicalism the book contends that evangelicals should embrace it this stereotype is only hurtful so long as one assumes that the arts represent a positive force in human society This work built off the scholarship of John Carey does not make that assumption Surveying the current pro artistic views of most evangelicals the author advances the argument that evangelicals need to return to their anti art roots By doing so they would align themselves with the most radical artistic elements of modernism rather than with the classicists that the movement currently seems to prefer and provide space for themselves to critique how secular artistic stereotypes of evangelicals have economically and artistically marginalized the evangelicals community
