Introduction

In this lesson students reflect on their understanding of an active healthy lifestyle. They also reflect on their own personal situation and what is required of them to meet the requirements for the physical activity practicum.

Specific Learning Outcome

11.PA.1 Demonstrate appropriate critical thinking, planning, and decision-making skills in the development and implementation of a personal physical activity plan that is safe and ethical and contributes to health-related fitness goals.

Background Information

Purpose of Physical Activity Practicum

Manitobans are concerned with the health of children and youth, specifically in the areas of nutrition, physical activity, and injury prevention. The intent of this course is to have parents, students, and schools “work together to help youth take greater ownership of their own physical fitness, promote the discovery of activities suited to their own individual interests, and encourage active lifestyles that persist into their futures” (Healthy Kids 25).
