Flight and Concealment Susanna Schrafstetter, 2022-09-06 Between ten thousand and twelve thousand Jews tried to escape Nazi genocide by going into hiding. With the help of Jewish and non-Jewish relatives, friends, or people completely unknown to them, these U-boats, as they came to be known, dared to lead a life underground. Flight and Concealment brings to light their hidden stories. Deftly weaving together personal accounts with a broader comparative look at the experiences of Jews throughout Germany, historian Susanna Schrafstetter tells the story of the Jews in Munich and Upper Bavaria who fled deportation by going underground. Archival sources and interviews with survivors and with the Germans who aided or exploited them reveal a complex, often intimate story of hope, greed, and sometimes betrayal. Flight and Concealment shows the options and strategies for survival of those in hiding and their helpers and discusses the ways in which some Germans enriched themselves at the expense of the refugees.

Traveling Companions Tuula Pere, 2018-10-31 After devastation caused by a landslide, the people of a small mountain village are forced to leave their ruined homes and embark on a difficult journey towards the valley. However, an unlikely trio has to stay behind and wait for help. The rope maker's son Tony has injured his leg; the oldest of the village is weakened by his age, and the blind blacksmith is not likely to make the difficult trek down. They are anxiously waiting to be rescued, but they are running out of options. Even though the odds are against them, the three companions gather their courage and set out. On this dangerous journey, they rely on each other and share the little they have left.

The Flight from Ambiguity Donald N. Levine, 1988-06-15 The essays turn about a single theme: the loss of the capacity to deal constructively with ambiguity in the modern era. Levine offers a head-on critique of the modern compulsion to flee ambiguity. He centers his analysis on the question of what responses social scientists should adopt in the face of the inexorably ambiguous character of all natural languages. In the course of his argument, Levine presents a fresh reading of works by the classic figures of modern European and American social theory: Durkheim, Freud, Simmel, and Weber, and Park, Parsons, and Merton.

Hitler's Jet Plane Mano Ziegler, 2023-06-30 The first operational military jet in the world towards the end of the Second World War, the ME 262 was to be the German miracle weapon. Mano Ziegler was involved from its inception and contributed to the design, testing, training, and even served in it operationally. Could the ME 262 have broken the Allied supremacy in the air? Why did it take so long to come into service, and why were hundreds of German pilots sacrificed in developing it? Why did the ME 262 prove not to be the unparalleled success claimed by Goering, and why were German cities left dangerously exposed against Allied bombing campaigns? These are only some of the important questions this new book answers.

Traveling to Unknown Places Lloyd S. Kramer, 2024-09-23 Traveling to Unknown Places presents a compelling, incisive analysis of how French and American writers reshaped their personal and collective identities as they traveled in foreign countries after the social upheavals of the eighteenth century.

Atlantic revolutions Delving into the experiences of renowned figures like Flora Tristan and Margaret Fuller alongside lesser known postrevolutionary travelers this book illuminates how cross cultural encounters pushed writers to redefine their views of nationality language race slavery gender religion science and political ideologies Lloyd Kramer deftly demonstrates how unsettling journeys challenged cultural preconceptions and fostered introspective writings that transcended geographical boundaries By interweaving the perspectives of women and men whose travels led them far beyond their youthful social origins Kramer unveils a rich tapestry of evolving selfhood ambition and political consciousness across the Atlantic world Each traveler s experience was unique but long journeys connected all these nineteenth century writers with others who had traveled before and trips into unknown distant cultures also carried travelers toward previously unknown places within themselves

Richard Wagner and the Centrality of Love Barry Emslie,2010 This is a bold book which argues that Wagner s music dramas cannot be understood if treated separately from his essays his life the intellectual and artistic climate of his day and the broader history of Germany Wagner attempts a range of reconciliations that are radical in content and form and appear to succeed partly because he is in well nigh complete command of the aesthetic product not only text and music but also production practice Nonetheless all the reconciliations ultimately break down but in a manner that is illuminating This is not a celebration of the seamless work of art but a radical unpicking of the seemingly seamless Love is the central organising concept of the whole Wagnerian project Love sexual and spiritual egotistical and charitable love of the individual and of the race is the key Wagnerian driving force And therefore so is hate Of course Wagner cannot employ love without its opposite and it is critically significant that his anti semitism is based upon his view that the Jews are loveless The book handles Wagner s anti semitism and the ongoing row about it in a unique way in that it is shown to be aesthetically and intellectually productive for him This leads to a radical reinterpretation of Wagner s music dramas

German Song Onstage Natasha Loges, Laura Tunbridge, 2020-05-05 A singer in an evening dress a grand piano A modest sized audience mostly well dressed and silver haired equipped with translation booklets A program consisting entirely of songs by one or two composers This is the way of the Lieder recital these days While it might seem that this style of performance is a long standing tradition German Song Onstage demonstrates that it is not For much of the 19th century the songs of Beethoven Schubert Schumann and Brahms were heard in the home salon and no less significantly on

the concert platform alongside orchestral and choral works A dedicated program was rare a dedicated audience even more so The Lied was a genre with both more private and more public associations than is commonly recalled The contributors to this volume explore a broad range of venues singers and audiences in distinct places and time periods including the United States the United Kingdom Russia and Germany from the mid 19th century through the early 20th century These historical case studies are set alongside reflections from a selection of today s leading musicians offering insights on current Lied practices that will inform future generations of performers scholars and connoisseurs Together these case studies unsettle narrow and elitist assumptions about what it meant and still means to present German song onstage by providing a transnational picture of historical Lieder performance and opening up discussions about the relationship between history and performance today

My Life of Ministry, Writing, Teaching, and Traveling Mark G. Boyer, 2021-02-04 In My Life of Ministry Writing Teaching and Traveling The Autobiography of an Old Mines Missionary I present my life as a child growing up in a French village about sixty miles south of St Louis in the middle of the twentieth century After eighteen years of life in Old Mines the oldest settlement in the state of Missouri I moved to St Louis for four years and then to St Meinrad Indiana for four years where education opened my eyes to a world very much larger than my village of origin Life continued for me after ordination as a priest in the Roman Catholic Church in Springfield and Joplin Missouri Because my life is the thread stitching together this book I have made it manageable by dividing it into four categories ministry writing teaching and travel These categories contain the stories of others whose life threads of seventy years are woven into my lifetime tapestry This is my autobiography one of a missionary from Old Mines to the thirty nine counties forming the southern third of the state of Missouri composed during my seventieth year of life

Traveling at the Speed of Thought Daniel Kennefick, 2016-03-29 Since Einstein first described them nearly a century ago gravitational waves have been the subject of more sustained controversy than perhaps any other phenomenon in physics These as yet undetected fluctuations in the shape of space time were first predicted by Einstein s general theory of relativity but only now at the dawn

of the twenty first century are we on the brink of finally observing them Daniel Kennefick's landmark book takes readers through the theoretical controversies and thorny debates that raged around the subject of gravitational waves after the publication of Einstein's theory The previously untold story of how we arrived at a settled theory of gravitational waves includes a stellar cast from the front ranks of twentieth century physics including Richard Feynman Hermann Bondi John Wheeler Kip Thorne and Einstein himself who on two occasions avowed that gravitational waves do not exist changing his mind both times The book derives its title from a famously skeptical comment made by Arthur Stanley Eddington in 1922 namely that gravitational waves propagate at the speed of thought Kennefick uses the title metaphorically to contrast the individual brilliance of each of the physicists grappling with gravitational wave theory against the frustratingly slow progression of the field as a whole Accessibly written and impeccably researched this book sheds new light on the trials and conflicts that have led to the extraordinary position in which we find ourselves today poised to bring the story of gravitational waves full circle by directly confirming their existence for the very first time
