Focus on Vocabulary Learning Marlise Horst, 2019-02-14 *Focus on Vocabulary Learning* explores teaching vocabulary to second and foreign language learners aged 5-18. It describes the considerable challenges of learning the vocabulary of a new language from a range of perspectives and aims to equip teachers with practical solutions to meet these challenges. This book provides corpus-informed insights into teaching the vocabulary that is most useful to learners and examines classroom-based research to identify effective learning strategies. A rich variety of practical activities and examples from real classrooms link theory to practice. *Focus on Vocabulary Learning* provides valuable guidance on a wide range of topics related to vocabulary teaching and learning in school contexts. The connections between current research findings and useful classroom strategies are very helpful. This engaging and accessible book should become an excellent resource for teachers. Stuart Webb, Professor of Applied Linguistics, University of Western Ontario.

Focus on Public Education in Florida Florida. Department of Education, 1977, **Illiterate America** Jonathan Kozol, 2011-11-02 It is startling and it is shaming in a country that prides itself on being among the most enlightened in the world 25 million American adults cannot read the poison warnings on a can of pesticide a letter from their child's teacher or the front page of a newspaper. An additional 35 million read below the level needed to function successfully in our society. The United States ranks forty-ninth among 158 member nations of the UN in literacy and wastes over 100 billion annually as a result. The problem is not merely an embarrassment; it is a social and economic disaster. In *Illiterate America* Jonathan Kozol, author of National Book Award-winning *Death at an Early Age*, addresses this national disgrace. Combining hard statistics and heartrending stories, he describes the economic and the human costs of illiteracy. Kozol analyses and condemns previous government action and inaction and in a passionate call for reform, he proposes a specific program to conquer illiteracy. One out of every three American adults cannot read this book, which is why everyone else must. *InfoWorld*, 2004-09-27 *InfoWorld* is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. *InfoWorld* also celebrates people, companies, and projects. **Signal**, 2005

Resources in Education, 2000-04 *Detoxing American Schools* Ernest J. Zarra III, 2020-09-15 *Detoxing America* Schools From Social Agency to Academic Urgency examines the issue of toxicity in public education institutions. Today's students are exposed to personal beliefs, lifestyle practices, and politicized educational policies, many of which are in contrast to the values of their upbringing. The innate toxic intentions of some teachers are revealed by their unabashed calls for students to take sides through avenues of shaming and even civil disobedience. Schools have become vessels of social agency. The time has come to detox American education and to call for teachers to return to the urgent fundamental mission of educating students academically. Too many teachers are following the paradigm found on many college campuses as they use prior experience to stir up students and bring new levels of emotion into their classrooms. The classroom environment has flipped, and what was once tolerance has become the new toxic intolerance. Fractious Americans seem addicted to the use of

polarized issues as social and emotional intoxicants Groups are strategic in seizing upon differences to ensure augmentation and marginalization upon ideological lines intensified often by the flames of social media and intolerant activism College students emerging from Gen Z are more radicalized from their time at college Unless American educators agree to step back from certain poisonous rhetoric and noxious activism our nation will continue to lose sight of the academic urgency before us and with it a generation of children
