One Book to Rule Them All Joseph Chad Sycamore, I can draw a euphoric warmth into my body straight from thin air It s the same euphoria you get after a great workout often called a runner s high As you are well aware that warm pleasant feeling isn t just your body heating up from exercise it s a surge of joy and vitality that starts in your chest and spreads throughout your body lifting your spirits We actually feel different versions of this warmth in all sorts of happy moments soaking up the sunshine hugging someone we love or being blown away by an amazing piece of art In this preface I ll show how these seemingly unrelated experiences are actually different forms of the same thing all originating from a single source God Surprisingly everything that makes life breathtakingly beautiful and gives us goosebumps can be traced all the way back to before the Big Bang However this profound existential insight is not going to be the book s most crucial aspect What s really fascinating is that even while perfectly still in a dark and freezing room without any external stimuli or another person I can generate this same blissful warmth within a few breaths You ve probably heard of monks who can sit on ice for hours

without feeling cold This isn't some superhuman ability it's the result of deep meditation far beyond anything a meditation app can offer That's why monks often choose solitude to immerse themselves fully in this nourishing energy letting it embrace them for days and nights However I believe this warmth isn't meant to be kept for oneself it should be shared and transformed into something even greater So in my part of the story I'm excited to share this book with all of you explaining everything as clearly and simply as possible from how these experiences connect to God to how you can tap into this cosmic source of euphoria yourself You are welcome to share it with friends neighbors or even your local barista My hope is that it reaches those who need it most
