

CITADEL

CONVERSION CHART

To use this chart, simply look up the old Citadel Colour in the top bar and you'll get the best match from the new paint range shown on the accompanying swatch.

This conversion chart allows you to get a good match between colours from our old and new paint range – especially useful if you're mid-project and you need to restock your paint supply. Be aware that as the new paint range comprises brand-new formulations we can suggest close, but not exact comparisons. While we're comparing old and new, it's worth noting the new Citadel Paint range is far larger. In fact, it's doubled in size, with over 70 additional colours to expand your palette and further enhance your models.
