

Fuel and air transport

A report for the European Commission

prepared by

Air Transport Department, Cranfield University

This report provides supplementary information to the quarterly and annual reports that Cranfield's Department of Air Transport has provided to the European Commission under contract TREN/05/MD/S07.52077.

The main objectives of the report are:

- analyse the effects a change in fuel price has to the industry players
- assess how the ATM related measures can help in fuel savings
- review the potential for introducing alternative fuel resources
- examine the responses aircraft and engine manufactures are providing in the short and long-term
- assess the regulatory framework (EU, national) on aviation fuel related issues

The study focuses on EU airlines, airports and airspace, although the findings are set in the context of the global aviation industry.

Gershon Report On Air Transport

Victor M. Corman

Gershon Report On Air Transport:

Delve into the emotional tapestry woven by Emotional Journey with in Dive into the Emotion of **Gershon Report On Air Transport** .
