

OPERATING INSTRUCTIONS

Before Operating Your Washer

Read your washer **Use and Care Guide**. It has important safety and warranty information. It also has many suggestions for best washing results.

WARNING To reduce the risk of fire, electric shock, or injury to persons, read the **IMPORTANT SAFETY INSTRUCTIONS** in your washer **Use and Care Guide** before operating this appliance.

Operating Steps

Read and follow **Washing Procedures** in your **Use and Care Guide**. It provides detailed information for preparing the wash load and choosing control settings to ensure best washing results.

- Sort laundry into loads that can be washed together.
- Prepare items for washing.

- Pretreat stains and heavy soil.
- Add laundry load to the wash drum.
- Open the dispenser drawer and add the measured amount of detergent to the detergent compartment. If desired, add liquid bleach and fabric softener to the appropriate compartments. Slowly close dispenser drawer. **Drawer should be completely closed for laundry additives to dispense.**
- Set Temperatures switch according to fabric type and soil level of each load.
- If desired, select Extra Rinse in Whites/Regular, Colors/Perm Press, or Delicates cycle.
- Select Final Spin Speed as desired.
- Push in the cycle selector knob and turn it clockwise to the desired wash cycle and setting.

- Start the washer by closing the door and pulling out the cycle selector knob. The washer will **not** operate with the door open. As a safety measure, the door will automatically lock during the entire wash cycle. When the door is closed, the **Door Lock Indicator** lights up when the washer starts, and turns off at the end of the cycle.

- To stop the washer, push in the cycle selector knob.
- To change a cycle, push in the cycle selector knob and turn it clockwise to the desired setting.
- Pull out the knob to restart the washer.

- Remove items when cycle ends. A signal will sound at the end of the cycle when the Cycle Signal **ON** is selected.

Note: From time to time you may see water in the bleach and fabric softener compartments. This is a result of the siphoning action and is part of the normal operation of the washer.
