Confronting Failures of Justice Paul H. Robinson,Jeffrey Seaman,Muhammad Sarahne,2024-08-06 Most murderers

and rapists escape justice a horrifying fact that has gone largely unexamined until now This groundbreaking book tours nearly the entire criminal justice system examining the rules and practices that regularly produce failures of justice in serious criminal cases Each chapter outlines the nature and extent of justice failures in present practice describing the interests at stake and providing real world examples Finally each chapter reviews proposed and implemented reforms that could balance the competing interests in a less justice frustrating manner and recommends one sometimes completely original reform to improve the system A systematic study of justice failures is long overdue As this book discusses regular failures of justice in serious criminal cases undermine deterrence and the criminal justice system s credibility with the community as a moral authority The damage caused by unpunished crime is immense and even worse falls primarily on vulnerable minority communities Now for the first time students researchers policymakers and citizens have a resource that explains why justice failures occur and what can be done about them **Confronting Failures of Justice** is accessible for use by college freshman through graduate students and law students and is designed to be main text for a course on justice failures but it could be used in conjunction with other texts in a broad range of courses touching on criminal justice It presents arguments in a highly organized fashion and provides dozens of case studies many with photographs to gain student interest and to bring the academic discussions to life

The Subjective Value of Privacy Lukas Antoine,2024-10-24 This book critically examines the subjective value of privacy in the context of state surveillance exploring how individuals assess costs and benefits of surveillance It delves into the complex relationship between attitudes towards privacy security and state surveillance and challenges the conventional privacy versus security trade off through three empirical studies The first study finds that security justifications for surveillance indeed influence public support for surveillance particularly in liberal

democracies The second study reveals how financial costs and personal convenience influence support for surveillance The third study suggests that privacy attitudes may be a stable personality trait influencing decisions across various contexts By employing cross comparative analysis and experimental designs this book enhances our understanding of privacy s subjective value refines theoretical frameworks and offers insights into individual decision making about privacy By highlighting the dynamic nature of privacy preferences this work reveals limitations of simplistic theoretical models and sets the stage for future research in the privacy security nexus

Confronting the Racist Legacy of the American Child Welfare System Alan J. Dettlaff,2023-07-28 In *Confronting the Racist Legacy of the American Child Welfare System* Alan J Dettlaff presents a call to abolish the American child welfare system due to the harm and destruction it causes Black families Dettlaff traces the origins of the modern child welfare system which emerged following the abolition of slavery to demonstrate that the harm and oppression that result from child welfare intervention are not the result of unintended consequences but rather are the clear intents of the system and the foreseeable results of the policies that have been put in place over decades By tracing the history of family separations in the United States since the era of slavery *Confronting the Racist Legacy of the American Child Welfare System* demonstrates that the intended outcomes of those separations the subjugation of Black Americans and the maintenance of white supremacy are the same intended outcomes of the family separations done today What distinguishes contemporary family separations from those that occurred during slavery is that today s separations occur under a facade of benevolence a myth that has been perpetuated over decades that family separations are necessary to save the most vulnerable children *Confronting the Racist Legacy of the American Child Welfare System* presents evidence of the vast harms that result from family separations to make a case that the child welfare system is beyond reform Rather the only solution to ending these harms is complete abolition of this system and a fundamental reimaging of the way society cares for children families and communities

Cardiovascular Neuroendocrinology Gina L. C. Yosten, J. Thomas Cunningham, 2023-10-28 The cardiovascular system and the neuroendocrine system are integrated at multiple levels This integration is key to normal physiological function Further it adapts to accommodate changes related to aging the organism's reproductive state or physiological challenges This type of adaptability or plasticity also can contribute to pathophysiology when these systems are stressed This volume discusses how neuroendocrine systems influence cardiovascular function in health and disease The first section provides detailed background information on neuronal and neuroendocrine control of cardiovascular function This is followed by chapters highlighting the cardiovascular role of neuroendocrine hormones in regulating physiological states such as pregnancy and the effects of biological sex on vascular function The influence of exercise stress psychology and aging on cardiovascular function and dysfunction and the possibility of therapeutically targeting the neuroendocrine axis for the treatment of cardiovascular disease are discussed in the final section of the book This book is of relevance for students trainees and

established researchers alike who are seeking for an overview on the neuroendocrine control of cardiovascular function and disease This is the fourteenth volume in the International Neuroendocrine Federation INF Masterclass in Neuroendocrinology series which aims to illustrate the highest standards and encourage the use of the latest technologies in basic and clinical research and hopes to provide inspiration for further exploration into the exciting field of neuroendocrinology

Children in Police Custody Miranda Bevan, 2023-12-05 *Children in Police Custody* shines a light on the hidden experiences of children in police detention in England and Wales An episode in police custody is the single most common sustained experience of the criminal justice system for children Yet child suspects have previously been largely overlooked in criminological research Drawing on the first comprehensive study in England and Wales to review the police custody process from the perspective of children the chapters trace the child's journey from arrest through detention and interview to release or remand Adopting a rights based approach this work investigates whether the present legal framework provides effective protection for child suspects Utilising the detailed insights provided by young participants in the research and supplemented by the author's fieldwork this analysis reveals the complex challenges facing children's legal agency in the adversarial setting of the custody block In so doing it evaluates the capacity of the available protections to enable children's participation in that setting A parallel criminological exploration examines the intersecting adversities experienced by child suspects and the complex power dynamics they navigate in police custody to arrive at an understanding of the particular harms of police detention for children and their longer term impact The book closes with a call for a retrenchment in the use of police custody for children and a reappraisal of how those who must be detained should be supported to enable their effective participation in the criminal justice process both in custody and beyond

Schram, Joseph A. Schwartz, Stephen G. Tibbetts, 2024-02-16 *Introduction to Criminology Why Do They Do It* offers a contemporary and integrated discussion of key criminological theories to help students understand crime in the 21st century Focusing on why offenders commit crimes authors Pamela J Schram Joseph A Schwartz and Stephen G Tibbetts apply established theories to real life examples to explain criminal behavior Coverage of violent and property crimes is included throughout theory chapters so that students can clearly understand the application of theory to criminal behavior Updates to the Fourth Edition include recent major social events such as the George Floyd protests changes in crime trends and criminal behavior as a result of the COVID 19 pandemic updated crime statistics case studies as well as contemporary topics such as mass shooting events and the legalization of marijuana use *Transformative Politics of Nature* Andrea Olive, Chance Finegan, Karen F. Beazley, 2023-10-02 *Transformative Politics of Nature* highlights the most significant barriers to conservation in Canada and discusses strategies to confront and overcome them Featuring contributions from academics as well as practitioners the volume brings together the perspectives of both Indigenous and non Indigenous experts on land and wildlife conservation in a way that honours and respects all peoples and nature Contributors provide insights that enhance understanding of key barriers important actors and strategies for shaping policy at multiple levels of government across Canada The chapters engage academics environmental conservation organizations and Indigenous communities in dialogues and explorations of the politics of wildlife conservation They address broad and interrelated themes organized into three parts barriers to conservation transformation through reconciliation and transformation through policy and governance Taken together the essays demonstrate the need for increased social political awareness of biodiversity and conservation in Canada enhanced wildlife conservation collaborative networks and increased scholarly attention to the principles policies

and practices of maintaining and restoring nature for the benefit of all peoples species and ecologies Transformative Politics of Nature presents a vision of profound change in the way humans relate to each other and with the natural world *The Oxford Handbook of Evidence-based Crime and Justice Policy* Brandon Welsh, Steven N. Zane, Daniel P. Mears, 2024 An evidence based approach to crime and justice policy can go a long way toward ensuring that the best available research is considered in decisions that bear on the public good However the term evidence based is characterized by a great deal of rhetoric Indeed there remains a marked disjuncture between calls for evidence based policy and an understanding of what it means for policy to be evidence based The calls for evidence based policy nonetheless provide a powerful foundation for propelling a movement toward bringing about rational cost effective and humane policies for the betterment of society This handbook showcases the state of research on evidence based crime and justice policy and the challenges that impede its creation and use The volume has three core objectives to promote new and productive ways to think about evidence based policy to demonstrate how research can contribute to and guide evidence based policy in juvenile justice criminal justice and alternatives to system responses and to identify strategies that can increase reliance on evidence based policy To meet these objectives each chapter is guided by several central questions What do we know about evidence based policy and practice in crime and justice How can we improve knowledge of evidence based policy and practice How can we promote more use of evidence based policy and practice Taken as a whole the volume emphasizes the critical need for policies that are grounded in high quality research that address critical research gaps and that fully acknowledge the limitations of what extant research can do to inform policy decisions
