need to find 20 years more than twice as long as the elephant 160 years or 20 years more than 160 years We add 20 to 160 to find the number of years that the sea turtle can live up to 20 160 180 years The techniques and strategies on using the addition and subtraction reasoning and the 3 elements formulas to solve decimal word problems on using algebra to solve word problems and on finding the measures of internal angles in triangles are also covered in this volume There is more in the volume than what is mentioned Detailed explanations of the reasoning and solving strategies for each and every problem in Volume 8 are given in this book **The Art of Solving Word Problems** Wallen,1994-11-01 **Math Word Problems**
