missing are the details of how to convince our discouraged and underperforming students that smart is something you can get. Until now. With the publication of *High Expectations Teaching*, Jon Saphier reveals once and for all evidence that the bell curve of ability is plain wrong; that ability is something that can be grown significantly if we can first help students to believe in themselves. In drill-down detail, Saphier provides an instructional playbook for increasing student confidence and agency in the daily flow of classroom life. Powerful strategies for attribution retraining organized around 50 Ways to Get Students to Believe in Themselves. Concrete examples, scripts, and classroom structures and routines for empowering student agency and choice. Dozens of accompanying videos showing high expectations strategies in action. All children in all schools, regardless of income or social class, will benefit from the strategies in this book. But for children of poverty and children of color, our proficiency with these skills is essential in many ways, life-saving. Jon Saphier challenges us, all educators, students, and parents to get started today. About Jon Saphier: The author of nine books, including *The Skillful Teacher*, Jon Saphier is founder and president of Research for Better Teaching, Inc. (RBT), a professional development organization dedicated since 1979 to improving classroom teaching and school leadership throughout the United States and internationally.

Ginsberg, Raymond J. Wlodkowski, 2015-02-27. When the first edition of *Diversity and Motivation* was published in 1995, it became a premier resource for faculty and administrators seeking effective and practical strategies that foster motivation among culturally diverse student groups. This revised and updated second edition of *Diversity and Motivation* offers a comprehensive understanding of teaching methods that promote respect, relevance, engagement, and academic success. Margery B. Ginsberg and Raymond J. Wlodkowski base their insights and concrete suggestions on their experiences and research as college faculty. The book defines norms, illustrates practices, and provides tools to develop four foundational conditions for intrinsically motivated learning: establishing inclusion, developing a positive attitude, enhancing meaning, and engendering competence. The authors provide perspectives on the social justice implications of each condition. *Diversity and Motivation* includes resources to help educators create a supportive community of learners, facilitate equitable discussions in linguistically diverse classrooms, design engaging lessons, and assess students fairly. The ideas in this book apply across disciplines and include teaching practices that can be easily adapted to a range of postsecondary settings. In addition, the authors include a cohesive approach to syllabus construction, lesson design, and faculty development. This new edition also contains a framework for motivating students outside traditional
