Internationalism in Children's Series K. Sands-O'Connor,M. Frank,2014-04-08 Internationalism in Children s Series brings together international children s literature scholars who interpret internationalism through various cultural historical and theoretical lenses From imperialism to transnationalism from Tom Swift to Harry Potter this book addresses the unique ability of series to introduce children to the world **Geography in British Schools, 1885-2000** Rex Walford,2019-07-23 This history charts how geography rose to popularity on a tide of imperial enthusiasms in Victorian time and made its way

into many elementary schools in the latter half of the 19th century. Many geography lessons were not dominated by the rote learning of capes and bays and some of the pioneers of the subject led the way in the use of models, visual aids and object lessons in schools. The book explores Scott Keltie's report of 1886 as a catalyst for development. Despite the founding of the Geographical Association in 1893, the subject needed a series of concerted political campaigns in the early 20th century to establish itself in the secondary sector. The growth of the regional approach, field work and of sample studies expanded the subject between the world wars, before a major conceptual revolution invigorated and challenged teachers of the subject in the post-war period.
