

This feels so fucking weird. My little sister has had the Gender Flu for almost a week, and I thought it was weird having a 17 year old boy around the house. The most awkward part of it was how she invited her friend, Mia, over for a "sleepover" three nights after catching it... and the next morning Mia was a dude. Well I've been trying to be super careful about keeping my distance from her and washing my hands after even being in the same room, but this morning I woke up like this. These fucking tits are so big and so sensitive, it's like having two dicks on my chest that are constantly bouncing whenever I move. My sister gave me her biggest tops, but I barely fit in them 'cause I'm like two cup sizes bigger than her. I think she did this on purpose, because she's really excited about having a sister for a couple weeks. She says when she turns back, she'll have a whole week to go on sister dates to the mall until I turn back... this is going to be a long couple of weeks.
