

Grade11 Life sciences Practical task

Instructions

1. Read the given reader below and understand it so that you may answer the questions that will follow below.
2. Answer each question's; don't leave any question unanswered if you do so you will be penalised.
3. If you didn't write the work you will get zero and you won't do the practical in class.
4. After the practical you will submit your work in class.
5. This practical will also prepare you for the exam that is about to come in November

Practical 1: Dissection of a sheep heart

Heart Dissection Walk Through :

The heart dissection is probably one of the most difficult dissections you will do. Part of the reason it is so difficult to learn is that the heart is not perfectly symmetrical, but it is so close that it becomes difficult to discern which side you are looking at (dorsal, ventral, left or right). Finding the vessels is directly related to being able to orient the heart correctly and figuring out which side you are looking at.

The heart is also difficult because the fatty tissue that surrounds the heart can obscure the openings to the vessels. This means that you really must experience the heart with your hands and feel your way to find the openings. Many people will be squeamish about this, and because the heart is slippery, it is easy to drop. Don't be shy with the heart; use your fingers to feel your way through the dissection.

1. Step One: Orientation

When you first remove your heart from the bag, you will see a lot of fatty tissue surrounding it. It is usually a waste of time to try to remove this tissue. You may also want to arm yourself with some kind of markers for the parts you find, colour pencils work great to identify a vessel and you will see many used to mark openings on the heart.

There are a few clues to help you figure out the left and the right side, but often the packaging and preserving process can cause the heart to be misshapen. If you are lucky, the heart will be nicely preserved and you will see that the front (ventral) side of the heart has a couple of key features:

- 1) a large **pulmonary trunk(artery)** that extends off the top of it
- 2) the flaps of the **auricles** covering the top of the **atria**.
- 3) the **curve** of the entire **front side**, whereas the **backside** is much **flatter**.

Berk, 2022-06-27 Now published by SAGE Exploring Lifespan Development Fourth Edition the essentials version of Development Through the Lifespan Seventh Edition by best selling author Laura E Berk includes the same topics the same number of chapters and the same outstanding features with a focus on the most important information and a greater emphasis on practical real life applications The text s up to date research strong multicultural and cross cultural focus along with Berk s engaging writing style help students carry their learning beyond the classroom and into their personal and professional lives Included with this title LMS Cartridge Import this title s instructor resources into your school s learning management system LMS and save time Don t use an LMS You can still access all of the same online resources for

this title via the password protected Instructor Resource Site Learn more **Digital Life Together** David I. Smith, Kara Sevensma, Marjorie Terpstra, Steven McMullen, 2020-05-05 Digital technologies loom large in the experience of today's students. However, parents, teachers, and school leaders have only started to take stock of the ramifications for teaching, learning, and faith. Based on a three-year in-depth study of Christian schools, *Digital Life Together* walks educators, school leaders, and parents through some of the big ideas that are hidden in our technology habits, going beyond general arguments for or against digital devices to address the nuanced realities of Christian education in a twenty-first century context. *The Development of Criminal and Antisocial Behavior* Julien Morizot, Lila Kazemian, 2014-12-02 This edited book summarizes the current state of knowledge on the development of criminal and antisocial behavior over the life course. It focuses mainly on the developmental perspective, which has had a paradigmatic influence on current theoretical and empirical works in criminology. With a multidisciplinary perspective, the book reviews the fundamental concepts of developmental criminology, the risk factors and developmental processes related to the most salient personal (e.g., genetics, personality) and environmental (e.g., family, peers, school) domains explaining the development of criminal and antisocial behavior, the developmental issues related to a number of special themes (e.g., women, criminality, street gangs), and the applied and policy implications of research in developmental criminology. In each chapter, prominent researchers from different disciplines, such as criminology and psychology, summarize the state of knowledge on a specific topic, identify the shortcomings of past research, offer recommendations for future research needs. Nutrients in Dairy and Their Implications for Health and Disease Ronald Ross Watson, Robert J. Collier, Victor R. Preedy, 2017-06-19 *Nutrients in Dairy and Their Implications for Health and Disease* addresses various dairy products and their impact on health. This comprehensive book is divided into three sections and presents a balanced overview of the health benefits of milk and milk products. Summaries capture the most salient points of each chapter, and the importance of milk and its products as functional foods is addressed throughout. Presents various dairy products and their impact on health. Provides information on dairy milk as an important source of micro and macronutrients that impact body functions. Addresses dietary supplements and their incorporation into dairy products. Routledge Handbook of Non-Violent Extremism Elisa Orofino, William Allchorn, 2023-03-09 This Handbook provides the first in-depth analysis of non-violent extremism across different ideologies and geographic centres, a topic overshadowed until now by the political and academic focus on violent and jihadi extremism in the Global North. Whilst acknowledging the potentiality of non-violent extremism as a precursor to terrorism, this Handbook argues that non-violent extremism ought to be considered a stand-alone area of study. Focusing on Islamist, Buddhist, Hindu, far-right, far-left, environmentalist, and feminist manifestations, the Handbook discusses the ideological foundation of their war on ideas against the prevailing socio-political and cultural systems in which they operate and provides an empirical examination of their main claims and perspectives. This is supplemented by a truly global overview of non-violent extremist groups, not only in Europe.

and the United States but also in Africa Asia Oceania and the Middle East The Handbook thus answers a call to decolonise knowledge that is especially prescient given both the complicity of non violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South The Handbook will appeal to those studying extremism radicalisation and terrorism It intersects several relevant disciplines including social movement studies political science criminology Islamic studies and anthropology

Schmidek and Sweet: Operative Neurosurgical Techniques E-Book Alfredo Quinones-Hinojosa,2021-04-22 Schmidek and Sweet has been an indispensable reference for neurosurgery training and practice for nearly 50 years and the 7th Edition of Operative Neurosurgical Techniques continues this tradition of excellence A new editorial board led by editor in chief Dr Alfredo Quinones Hinojosa along with more than 330 internationally acclaimed contributors ensures that readers stay fully up to date with rapid changes in the field New chapters surgical videos and quick reference features throughout make this edition a must have resource for expert procedural guidance for today s practitioners Discusses indications operative techniques complications and results for nearly every routine and specialized procedure for brain spinal and peripheral nerve problems in adult patients Covers the latest techniques and knowledge in deep brain stimulation for epilepsy movement disorders dystonia and psychiatric disorders surgical management of blast injuries invasive electrophysiology in functional neurosurgery and interventional management of cerebral aneurysms and arterio venous malformations Includes new chapters on bypass techniques in vascular disease previously coiled aneurysms CSF diversion procedures surgical management of posterior fossa cystic and membranous obstruction laser ablation techniques and brain stem tumors Explores hot topics such as wide awake surgery and ventriculo peritoneal ventriculoatrial and ventriculo pleural shunts Provides detailed visual guidance with more than 1 600 full color illustrations and 50 procedural videos Contains quick reference boxes with surgical pearls and complications Enhanced eBook version included with purchase Your enhanced eBook allows you to access all of the text figures and references from the book on a variety of devices

Handbook of Educational Psychology Lyn Corno,Eric M.
