Globalization and Labour in the Twenty-First Century Verity Burgmann, 2016-04-14 The Open Access version of this book available at <http://www.tandfebooks.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license Globalization has adversely affected working class organization and mobilization increasing inequality by redistribution upwards from labour to capital However workers around the world are challenging their increased exploitation by globalizing corporations In developed countries many unions are transforming themselves to confront employer power in ways more appropriate to contemporary circumstances in developing countries militant new labour movements are emerging Drawing upon insights in anti determinist Marxian perspectives Verity Burgmann shows how working class resistance is not futile as protagonists of globalization often claim She identifies eight characteristics of globalization harmful to workers and describes and analyses how they have responded collectively to these problems since 1990 and especially this century With case studies from around the world including Greece since 2008 she pays particular attention to new types of labour movement organization and mobilization that are not simply defensive reactions but are offensive and innovative responses that compel corporations or political institutions to change Aging and less agile manifestations of the labour movement decline while new expressions of working class organization and mobilization arise to better battle with corporate globalization This book will be of interest to students and scholars of labour studies globalization political economy Marxism and sociology of work

Cities in Crisis Jörg Knieling, Frank Othengrafen, 2015-09-16 In recent years European societies and territories have witnessed the spatial impacts of a severe financial and socio economic crisis This book builds on the current debate concerning how cities and urban regions and their citizens deal with the consequences of the recent financial and socio economic crisis Cities in Crisis examines the political and administrative implications of austerity measures applied in southern European cities These include cuts in local public spending and the processes of privatization of local public assets as well as issues related to the re scaling recentralization or decentralization of competencies Attention is paid to the rise of new austerity regimes the question of their legitimacy and their spatial manifestations and in particular to the social consequences of austerity The contributions to this book lay the foundation for recommendations on how to improve and consolidate qualified governance arrangements in order to better address rapid economic and social changes Such recommendations are applicable to cities and urban regions both within and outside of Europe It identifies possible approaches tools and partnerships to tackle the effects of the crisis and to prepare European cities for future challenges

Capital and the Common Good Georgia Levenson Keohane, 2016-09-27 Despite social and economic advances around the world poverty and disease persist exacerbated by the mounting challenges of climate change natural disasters political conflict mass migration and economic inequality While governments commit to addressing these challenges traditional public and philanthropic dollars are not enough Here innovative finance has shown a way forward by

borrowing techniques from the world of finance we can raise capital for social investments today Innovative finance has provided polio vaccines to children in the DRC crop insurance to farmers in India pay as you go solar electricity to Kenyans and affordable housing and transportation to New Yorkers It has helped governmental commercial and philanthropic resources meet the needs of the poor and underserved and build a more sustainable and inclusive prosperity Capital and the Common Good shows how market failure in one context can be solved with market solutions from another an expert in securitization bundles future development aid into bonds to pay for vaccines today an entrepreneur turns a mobile phone into an array of financial services for the unbanked and policy makers adapt pay for success models from the world of infrastructure to human services like early childhood education maternal health and job training Revisiting the successes and missteps of these efforts Georgia Levenson Keohane argues that innovative finance is as much about incentives and sound decision making as it is about money When it works innovative finance gives us the tools motivation and security to invest in our shared future

The Condition of Democracy Jürgen Mackert,Hannah Wolf,Bryan S. Turner,2021-07-12 Recent years have seen contestations of democracy all around the globe Democracy is challenged as a political as well as a normative term and as a form of governance Against the background of neoliberal transformation populist mobilization and xenophobic exclusion but also of radical and emancipatory democratic projects this collection offers a variety of critical and challenging perspectives on the condition of democracy in the 21st century The volumes provide theoretical and empirical enquiries into the meaning and practice of liberal democracy the erosion of democratic institutions and the consequences for citizenship and everyday lives With a pronounced focus on national and transnational politics and processes as well as postcolonial and settler colonial contexts individual contributions scrutinize the role of democratic societies ideals and ideologies of liberal democracy within global power geometries By employing the multiple meanings of The Condition of Democracy the collection addresses the preconditions of democratic rule the state this form of governance is in and the changing ways in which citizens can still act as the sovereign in liberal democratic societies The books offer both challenging theoretical perspectives and rigorous empirical findings of how to conceive of democracy in our times which will appeal to academics and students in social and political science economics and international relations amongst other fields The focus on developments in the Middle East and North Africa will furthermore be of great usefulness to academics and the wider public interested in the repercussions of western democracy promotion as well as in contemporary struggles for democratization from below During the last 50 years liberal democracies have been exposed to a fundamental reorganization of their politico economic structure that transformed them through the impact of

neo liberal economic doctrines focused on low taxation free markets and out sourcing that have little regard in reality for democratic institutions or liberal values The failures of the neoliberal remedy for capitalism are now dramatically obvious through the banking crisis of 2008 2011 the increase in income inequality the social and psychological damage caused by the austerity packages across Europe and widespread dependence on experts whose influence over government policies typically goes without public scrutiny While this has only accelerated the destruction of the social fabric in modern Western societies the dramatic redistribution of wealth and an open politics for the rich have also revealed the long time well covered alliance of the global oligarchy with the Far Right that has the effect of undermining democracy The contributions to this volume discuss a wide variety of processes of transformation the social consequences dedemocratization and illiberalization of once liberal democracies through the destructive impact of neoliberal strategies These strongly politico economic contributions are complemented with general sociological analyses of a number of cultural aspects often neglected in analyses of democracy

The Report: Mongolia 2014 Oxford Business Group,2014-05-23 Since the country s transition from communism two decades ago the Mongolian economy has experienced rapid liberalisation Sectors including ICT and insurance are expanding quickly and while the mining sector has been responsible for making Mongolia a rising star in the global economy there is great potential for further growth in all economic sectors Politically stable and rich with natural resources Mongolia has emerged as a bellwether for investor confidence in recent years The 2013 commercialisation of the Oyu Tolgoi gold and copper mine is helping to diversify Mongolia s mineral exports away from coal while the government is working to improve the investment environment by adopting the new Investment Law among other measures Challenges do exist however from the long harsh winters that slow construction to the difficulty of connecting the sparsely populated nation through ICT and transport systems In response the government has partnered with the private sector on a number of fronts in order to promote economic diversification and competitiveness

Sustainable Development Samuel O. Idowu,Henk J. de Vries,Ivana Mijatovic,Donggeun Choi,2019-09-27 This book examines education about standardization in the context of sustainable management It shows the role of standardization education in the global economy and in markets industries and businesses The book presents knowledge on

standardization for sustainable management describes measures that can be taken to stimulate it and highlights strategies for teaching and disseminating the concept Subsequently presenting a number of best practices and case studies the book seeks to align theory and practice For researchers this is the first academic publication that interconnects the concepts of sustainability standardization and education For professionals in the area of sustainability it shows that standardization is an essential instrument for enhancing sustainability for which proper education is needed For standardization professionals the book reveals the links to sustainability and it shows not only the importance of education about standardization but also how this can be organized and finally for universities the book shows that standardization deserves to be included in the curriculum and it provides guidance and best practice examples about how this can be done

The Closing of the Liberal Mind Kim R. Holmes, 2017-12-12 A former U S Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation Kim R Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite illiberalism abandoning the precepts of open mindedness and respect for individual rights liberties and the rule of law upon which the country was founded and becoming instead an intolerant rigidly dogmatic ideology that abhors dissent and stifles free speech Tracing the new illiberalism historically to the radical Enlightenment a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding Holmes argues that today s liberalism has forsaken its American roots incorporating instead the authoritarian anti clerical and anti capitalist prejudices of the radical and largely European Left The result is a closing of the American liberal mind Where once freedom of speech and expression were sacrosanct today liberalism employs speech codes trigger warnings boycotts and shaming rituals to stifle freedom of thought expression and action It is no longer appropriate to call it liberalism at all but illiberalism a set of ideas in politics government and popular culture that increasingly reflects authoritarian and even anti democratic values and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process Although illiberalism has always been a temptation for American liberals lurking in the radical fringes of the Left it is today the dominant ideology of progressive liberal circles This makes it a new danger not only to the once venerable tradition of liberalism but to the American nation itself which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties

The Coming of New Industrial State Sergey Bodrunov, 2024-02-20 The book explores the effect of modern technological shifts on human society showing that technologies are undergoing accelerating qualitative changes that open up new opportunities for personal development and satisfaction of wants and simultaneously engender risks associated with growing opportunities of human interference with nature and technogenic stress on the environment Based on the study of cutting edge technologies and resulting socioeconomic shifts Bodrunov s analysis outlines the shape of the civilizational crisis we face It can only be overcome by founding a new industrial society of the second generation if we consider the new industrial state described by J K Galbraith

as the first generation reliant on knowledge intensive material production and the gradual removal of humans from immediate material production

Teach Janice Koch, 2019-01-02 Teach is a concise introduction to education that challenges students preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium InTASC standards correlating with each chapter's content With the guidance of this supportive text students will gain vital exposure by engaging with professional standards from the very start of their career

The Depoliticisation of Greece's Public Revenue Administration Dionyssis Dimitrakopoulos, Argyris Passas, 2019-09-25 This book analyses the reform of Greece's public revenue administration promoted by its international lenders under the successive bailout agreements put in place since 2010 In particular it shows how an integral part of the finance ministry was converted into an independent agency operating largely outside the direct control of the finance minister The authors focus on the implementation of this major reform and demonstrate the impact of domestic decisions on the increasing specificity of the international lenders demands and the concomitant lack of confidence in the Greek political elite's commitment to the reform package This book helps readers understand the response to the eurozone crisis especially the conditionality of funding Greece's reform capacity with a focus on its tax administration and the expansion of the scope of non majoritarian

institutions in Western democracies **Conflict & Prosperity** Menachem Blondheim, Andreas Stergio, Kivanç Ulusoy, 2017-08-07 The eastern part of the Mediterranean is witnessing some of the most intriguing and dangerous events in today's world. It features weak or collapsed states, direct and proxy wars, and a confluence of great power stakes. In recent years, a new and significant element has been added to the region's troubled search for equilibrium: the discovery of substantial treasures of offshore energy. These energy discoveries are widely recognized as a game changer. This volume investigates the extent of this change and the range of its implications. The Eastern Mediterranean has historically been a meeting point of east and west, of the economic north and south, and of three major world religions: Christianity, Islam, and Judaism. However, this volume proposes to view the Eastern Mediterranean as a separate new region and not as a mere extension of neighboring continents or even of the Middle East. This analytical frame stands at the center of the book.

Consumer Protection and Online Auction Platforms Dr. Christine Riefa, 2015-08-28 This book explores the legal classification of online auction sites across a range of countries in Europe. The research focusses on the protection of consumers' economic rights and highlights the shortcomings that the law struggles to control. The study includes empirical studies conducted on 28 online auction websites in the UK and provides insights into how technical measures as well as a tighter legislative framework could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves. *Open to Think* Dan Pontefract, 2018-09-11 While it may not occur to us on a daily basis, there is a widespread cultural tendency toward quick decisions and quick action. This pattern has resulted in many of our society's greatest successes but even more of its failures. Though the root cause is by no means malicious, we have begun to reward speed over quality, and the negative effects suffered in both our personal and professional lives are potentially catastrophic. Best-selling author and Chief Envisioner Dan Pontefract offers the solution to this predicament with what he coins Open Thinking: a cyclical process in which creativity is encouraged, critiquing leads to better decisions, and thoughtful action delivers positive, sustainable results. He proposes a return to balance between the three components of productive thought: dreaming, deciding, and doing. Based on organizational and societal data, academic research, historical studies, and a wide range of interviews, *Open to Think* is an appeal for a world of better thinking. Pontefract introduces tangible, actionable strategies to improve the way we think as organizations and individuals.
