So You Want to Be a Lawyer? David Weisbrot, 2013-01-01 *So You Want to Be a Lawyer* is the first comprehensive Australian guide written for people who are contemplating enrolling in a law degree whether as an undergraduate or as a postgraduate as well as for those who are already enrolled but wondering where their law degree may lead them. This essential guide provides the basic structures of the Australian legal professions and the best reasons for studying or not studying Law at university. The history and development of legal education in Australia including the modern trend towards clinical education and professional skills development. A description of each of the 36 Australian university law schools highlighting what each institution offers and what it believes makes it unique. A checklist of the features, factors and costs to be considered in making an informed decision about which law school to choose including information addressed to Indigenous students, women, LGBTI students, students with a disability and those from rural, remote and regional Australia. Insights into the life of a law student including survival strategies, study tips and getting the most out of student life. An original analysis of the highly dynamic Australian legal professions which are rapidly adapting to a new environment prompted by competition, information and communications technology and globalisation. *So You Want to Be a Lawyer* provides all of the information any prospective law student will need to make an informed and intelligent decision about the best place for them to study, what to study and where it all might lead.

**DFID Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2012-02-03** The DFID's transfer programmes deliver cash, food and assets such as livestock directly to people living in poverty. Transfers can be used to tackle a range of issues such as hunger and malnutrition or access to health and education services in a variety of contexts. In 2010/11 the Department spent 192 million on social protection programmes which includes its transfer programmes. The evidence heard suggests transfer programmes are effective in targeting aid and ensuring the money goes directly to the poorest and most vulnerable people. It is therefore surprising that the use of transfer programmes has not increased. The Department only plans to support transfer programmes in 17 of its 28 priority countries. It does not have an overall strategy for the use of transfers and its decisions on where to support transfer programmes look reactive. The decision as to whether or not to propose a transfer programme is taken by staff working in the country and it is not clear why there are extensive programmes in some countries and none in others. The Department does not collect data on all the costs of the transfer programmes it supports and the Department is therefore unable to say whether it is lifting more people out of poverty for every pound spent on transfers compared to other programmes. The Department's long term objective is for the governments of recipient countries to take on the responsibility of owning and funding transfers as part of a sustainable social security system. However, the Department has not been clear about how individual programmes will be sustained.

**Handbook on Hybrid Organisations** David Billis, Colin Rochester, 2020-02-28 Hybrid Organisations that integrate competing organisational principles have become a preferred

means of tackling the complexity of today's societal problems. One familiar set of examples are organisations that combine significant features from market, public and third sector organisations. Many different groundbreaking approaches to hybridity are contained in this Handbook which brings together a collection of empirical studies from an international body of scholars. The chapters analyse and theorise the position of hybrid organisations and have important implications for theory, practice and policy in a context of proliferating hybrid forms of organisation.
