Description

The Honeywell CM907 is a programmable room thermostat designed to control your heating system efficiently, providing comfortable temperatures when you are at home and energy savings when you are away. The following instructions explain how to program and use the CM907 to provide the most home comfort at the least cost.

Features

Engineered User Interface features an **ON-button** making the CM907 very easy to use for your average day to control.

Expanded Test Display provides informative 'troubleshoot' feedback and operational assistance to the user.

Extra Large LCD (Liquid Crystal Display) Screen with Backlight provides added user functionality and clearer viewing – even in the dark.

7-day heating program lets you set the CM907 independently for each day of the week to match your lifestyle, while maximizing energy savings.

8 Independent temperature levels per day lets you set any 8 temperatures you require (from 5 to 20°C) so you can enjoy economical comfort every day.

Holiday button saves energy by letting you reduce the temperature for 1 to 20 days when you are away from home, ensuring normal operation on your return.

Party button lets you temporarily increase (or adjust) the current temperature for 1 – 20 hours, useful when you have guests or leave the house for a short period.

Day Off button moves Sunday's program into any other day of the week so that you can make the CM907 follow the program if you have a day of days off.

Automatic Summer/Winter Time Change will adjust the clock automatically for Daylight Saving Time.

Button Memory holds the user program indefinitely so that it is never lost – even if you remove the batteries.

Outside Temperature Sensor (optional accessory) can be fitted to the CM907 to display the temperature outside your home.

Remote Temperature Sensor (optional accessory) can be fitted to the CM907 to control the room temperature in another location, controlling the CM907.

Optimum Start option is an advanced feature which ensures that the optimum temperature conditions are achieved at the required times.
