

Geometric Sequences

Geometric sequences (geometric progressions) are ordered sets of numbers that progress by **multiplying or dividing each term by a common ratio**.

E.g.

1, 2, 4, 8, 16, ...

The sequence 1, 2, 4, 8, 16 is shown with curved arrows between each pair of consecutive terms. Below each arrow is a light blue box containing the text $\times 2$, indicating that each term is multiplied by 2 to get the next term.

E.g.

20, 10, 5, 2.5, 1.25

The sequence 20, 10, 5, 2.5, 1.25 is shown with curved arrows between each pair of consecutive terms. Below each arrow is a light blue box containing the text $\div 2$, indicating that each term is divided by 2 to get the next term.
