Linguistic and Material Intimacies of Cell Phones Joshua A. Bell, Joel C. Kuipers, 2018-04-27 *Linguistic and Material Intimacies of Cell Phones* offers a detailed ethnographic and anthropological examination of the social cultural linguistic and material aspects of cell phones With contributions from an international range of established and emerging scholars this is a truly global collection with rural and urban examples from communities across the Global North and South Linking the use of cell phones to contemporary discussions about representation mediation and subjectivity the book investigates how this increasingly ubiquitous technology challenges the boundaries of privacy and selfhood raising new questions about how we communicate

Whole Earth Discipline Stewart Brand, 2010-09-28 An icon of the environmental movement outlines a provocative approach for reclaiming our planet According to Stewart Brand a lifelong environmentalist who sees everything in terms of solvable design problems three profound transformations are under way on Earth right now Climate change is real and is pushing us toward managing the planet as a whole Urbanization half the world's population now lives in cities and eighty percent will by midcentury is altering humanity's land impact and wealth And biotechnology is becoming the world's dominant engineering tool In light of these changes Brand suggests that environmentalists are going to have to reverse some longheld opinions and embrace tools that they have traditionally distrusted Only a radical rethinking of traditional green pieties will allow us to forestall the cataclysmic deterioration of the earth's resources *Whole Earth Discipline* shatters a number of myths and presents counterintuitive observations on why cities are actually greener than countryside how nuclear power is the future of energy and why genetic engineering is the key to crop and land management With a combination of scientific rigor and passionate advocacy Brand shows us exactly where the sources of our dilemmas lie and offers a bold and inventive set of policies and solutions for creating a more sustainable society In the end says Brand the environmental movement must become newly responsive to fast moving science and take up the tools and discipline of engineering We have to learn how to

manage the planet's global scale natural infrastructure with as light a touch as possible and as much intervention as necessary

Rethinking Marginality in South Africa Powell, Crystal, 2014-07-19 What does it mean to be marginal For residents of Cape Town's Langa Township being considered marginal is subject to a host of social physical and sometimes materialistic qualifications not least of which is owning a mobile phone Through various presentations of unique aspects of township life revealed through ethnographic snapshots this book reveals the complex realities of marginalization experienced by some residents in Langa Township located in Cape Town South Africa Mobile phones have been embraced and accommodated by both local South Africans and African immigrant residents living and working in Langa Among other things the technology has become a way of challenging real and imagined marginalities within the township in particular and South Africa in general The book provides empirical data on the role of technology in regards to migration and notions of belonging specifically the ways that technology has mitigated distance for residents provided opportunities for development facilitated the negotiation of various marginalities and offered new ways of belonging for Langa residents

The Great Indian Phone Book Assa Doron, Robin Jeffrey, 2013-04-02 In 2001 India had 4 million cell phone subscribers Ten years later that number had exploded to more than 750 million Over just a decade the mobile phone was transformed from a rare and unwieldy instrument to a palm sized affordable staple taken for granted by poor fishermen in Kerala and affluent entrepreneurs in Mumbai alike The Great Indian Phone Book investigates the social revolution ignited by what may be the most significant communications device in history one which has disrupted more people and relationships than the printing press wristwatch automobile or railways though it has qualities of all four In this fast paced study Assa Doron and Robin Jeffrey explore the whole ecosystem of the cheap mobile phone Blending journalistic immediacy with years of field research experience in India they portray the capitalists and bureaucrats who control the cellular infrastructure and wrestle over bandwidth rights the marketers and technicians who bring mobile phones to the masses and the often poor village bound users who adapt these addictive and sometimes troublesome devices to their daily lives Examining the challenges cell phones pose to a hierarchy bound country the authors argue that in India where caste and gender restrictions have defined power for generations the disruptive potential of mobile phones is even greater than elsewhere The Great Indian Phone Book is a rigorously researched multidimensional tale of what can happen when a powerful and readily available technology is placed in the hands of a large still predominantly poor population

Leisure Jacob T. Snyder, 2024-08-01 Leisure is a genealogy of the concept of leisure from its peak in the classical age to its inversion and fall in modern liberalism The goal of this genealogy is to analyze models of leisure and to inquire into the potential future shape of it In that process Jacob T Snyder asks what was leisure in its peak form in the classical age In such a form how was leisure understood to be connected to human flourishing Then what happened to leisure What was the argument for work that won over the West What must be rejected or lost about work if leisure is to be reanimated In asking and answering these questions Snyder argues that political reform such as limiting work

weeks is insufficient to make us leisured Leisure demands more including a new understanding of what makes us happy and thriving creatures Repairing Infrastructures Christopher R. Henke, Benjamin Sims, 2020-10-13 An investigation of the causes and consequences of the strange ambivalent and increasingly central role of infrastructure repair in modern life Infrastructures communication food transportation energy and information are all around us and their enduring function and influence depend on the constant work of repair In this book Christopher Henke and Benjamin Sims explore the causes and consequences of the strange ambivalent and increasingly central role of infrastructure repair in modern life Henke and Sims offer examples from local to global to investigate not only the role of repair in maintaining infrastructures themselves but also the social and political orders that are created and sustained through them Repair can encompass not only the kind of work we most commonly associate with the term but also any set of practices aimed at restoring a sense of normalcy or credibility to the places and institutions we inhabit in everyday life From cases as diverse as the repair of building systems on a university campus a conflict over retrofitting a bridge while protecting murals painted on it and the global challenge posed by climate change Henke and Sims assemble a range of examples to illustrate key conceptual points about the role of repair They show that repair is an essential if often overlooked aspect of understanding the broader impact and politics of infrastructures Understanding repair helps us better understand infrastructures and the scope of their influence on our lives

Mobile Fix Michael Worthington, 2019-03-05 Place Management and Crime John E. Eck, Shannon J. Linning, Tamara D. Herold, 2023-03-22 This brief describes the theory and evidence of a form of social control known as place management Created by property owners place management is an alternative to the two other domains of social control formally created by the state and informally created by residents It helps explain the high concentration of crime and disorder at a relatively small proportion of addresses and facilities This volume examines the specifics of place management and extends it in three ways to show how high crime places may radiate crime into their surroundings to reveal networks of places that create crime hotspot spanning blocks to demonstrate how networks of place managers influence crime throughout neighborhoods Finally it shows that the policy implications of place management extend far beyond the police and should include regulatory policies

Wow! I'm 80! Samuel Solomon, 2019-05-23 When I reached my 80th birthday I was reminded of my thinking when I was in my late 30's and my father was 72 He proudly stated he was a member of SCORE Service Corps of Retired Executives and was helping local businesses I had difficulty believing he was capable of helping others based on his advanced age In retrospect I now realize he was almost 10 years younger than I am so I am documenting to share with others what someone in his 80's can do

Weibert, Volker Wulf, 2022 Future Proofing addresses the problems of sustainability in IT research projects It provides a conceptual framework which allows readers to better understand sustainability issues make them aware of the challenges around effective sustainability and provide tangible suggestions for researchers to put into action **Frozen Grief** Roger H. Panzer, 2012-03-15 Inside cover When a persons life ends there is a grieving process for family and friends The closer your relationship is to the person the longer the grieving The grieving of your loss doesnt go on forever and the person is not forgotten From time to time memories of past events will come back Those memories for the most part are good for you In my case I am still grieving the loss of my wife My wife is alive but her life is a long way away from what she or I would want it to be or thought we would have She is not able to do the many things a grandma would do for her grandchildren She is not able to do many things for herself plus she cant live in her own house with me Life sucks sometimes Many people have a tragedy happen in their lives For me in my situation what could I do I only had two choices I could stay and deal with the problems and frustrations of being a husband caregiver or I could leave I chose to stay What choice did I have really My wife needed me and I needed to honor and fulfill those marriage vows I took so long ago **Beyond Drugs, Smuggling and Trafficking** Gabriella Sanchez, Sheldon X. Zhang, 2021-09-27 Graphic depictions of crime in Mexico abound in the global imagination fueled not merely by media representations but also by an abundant body of scholarship that reproduces grotesque simplistic characterizations of Mexico s people cities and towns as crime ridden and almost inherently violent These representations however often lack evidence and forgo important contextual analyses not to mention fail to incorporate the perspectives of its actors in the research development process This collection of essays shows how community based research efforts to examine practices like kidnapping migrant smuggling human trafficking sex work and citizen led forensics in Mexico can effectively correct methodological and conceptual gaps present in Mexico s dominant organized crime narrative while providing effective mechanisms to inform academic and policy debates This easy to read volume provides a much needed re assessment of Mexico s organized crime rhetoric and also outlines a pathway for those interested in developing critical empirical research on illicit and criminalized practices The chapters in this book were originally published as a special issue of the journal Victims Offenders **US Highway 18/151, CTH PD to USH 12, US Highway 12/14, USH 14 to Todd Drive, Dane County**, 2011
