The Spectacle 2.0 Marco Briziarelli, Emiliana Armano, 2017-12-17 Spectacle 2.0 recasts Debord's theory of spectacle within the frame of 21st century digital capitalism. It offers a reassessment of Debord's original notion of Spectacle from the late 1960s of its posterior revisitation in the 1990s and it presents a reinterpretation of the concept within the scenario of contemporary informational capitalism and more specifically of digital and media labour. It is argued that the Spectacle 2.0 form operates as the interactive network that links through one singular but contradictory language and various imaginaries uniting diverse productive contexts such as logistics, finance, new media and urbanism. Spectacle 2.0 thus colonizes most spheres of social life by processes of commodification, exploitation and reification. Diverse contributors consider the topic within the book's two main sections. Part I conceptualizes and historicizes the Spectacle in the context of informational capitalism; contributions in Part II offer empirical cases that historicise the Spectacle in relation to the present and recent past, showing how a Spectacle 2.0 approach can illuminate and deconstruct specific aspects of contemporary social reality. All contributions included in this book rework the category of the Spectacle to present a stimulating compendium of theoretical critical literature in the fields of media and labour studies. In the era of the gig economy, highly mediated content and President Trump, Debord's concept is arguably more relevant than ever.

The Routledge History of Emotions in the Modern World Katie Barclay, Peter N. Stearns, 2022-08-09 The Routledge History of Emotions in the Modern World brings together a diverse array of scholars to offer an overview of the current and emerging scholarship of emotions in the modern world. Across thirty-six chapters, this work enters the field of emotion from a range of angles. Named emotions (love, anger, fear) highlight how particular categories have been deployed to make sense of feeling and their evolution over time. Geographical perspectives provide access to the historiographies of regions that are less well covered by English language sources, opening up global perspectives and new literatures. Key thematic sections are designed to intersect with critical historiographies, demonstrating the value of an emotions perspective to a range of areas. Topical sections direct attention to the role of emotions in relations of power to intimate lives and histories of place as products of exchanges across groups and as deployed by new technologies and medias. The concepts of globalisation and modernity run through the volume, acting as foils for comparison and analytical tools. The Routledge History of Emotions in the Modern World is the perfect resource for all students and scholars interested in the history of emotions across the world from 1700.

The Work and Play of the Mind in the Information Age Phillip Kalantzis-Cope, 2017-09-23 This book tells a series of living stories about a domain of social activity: the work and play of the mind in a particular historical epoch, the information age. The stories concern political processes and movements as varied as the World Trade Organization's Trade-Related Aspects of Intellectual Property Rights, China's Great Firewall, practices of image sharing in social media, Occupy Wall Street, The Arab Spring, The Alt Right, and the use of geographical indications by indigenous peoples and farmers to defend their lifestyles. In its theoretical analysis, the

book illuminates four alternative political agendas for the work and play of the mind These four propertyscapes represent competing visions for social life framing projects for collective political action that are at times competing at times overlapping The author prompts us to consider whose property is the work and play of the mind as well as addressing larger questions regarding the framing of political space the kinds of political communities we may need for the future and the changing place of the work and play of the mind within these social imaginaries The book will be of interest to students and scholars across a range of disciplines including media and communications arts and design law politics and interdisciplinary social sciences *The Routledge Companion to the Contemporary Musical* Jessica Sternfeld, Elizabeth L.

Wollman, 2019-08-16 The Routledge Companion to the Contemporary Musical is dedicated to the musical's evolving relationship to American culture in the late twentieth and early twenty first centuries In the past decade and a half international scholars from an ever widening number of disciplines and specializations have been actively contributing to the interdisciplinary field of musical theater studies Musicals have served not only to mirror the sociopolitical economic and cultural tenor of the times but have helped shape and influence it in America and across the globe a genre that may seem at first glance light hearted and escapist serves also as a bold commentary on society Forty four essays examine the contemporary musical as an ever shifting product of an ever changing culture This volume sheds new light on the American musical as a thriving contemporary performing arts genre one that could have died out in the post Tin Pan Alley era but instead has managed to remain culturally viable and influential in part by newly embracing a series of complex contradictions At present the American musical is a live localized old fashioned genre that has simultaneously developed into an increasingly globalized tech savvy intensely mediated mass entertainment form Similarly as it has become increasingly international in its scope and appeal the stage musical has also become more firmly rooted to Broadway the idea if not the place and thus branded as a quintessentially American entertainment **Destination Anime!** Barbara Rossi, 2025-10-21

Governable Spaces Nathan Schneider, 2024-02-27 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more When was the last time you participated in an election for an online group chat or sat on a jury for a dispute about a controversial post Platforms nudge users to tolerate nearly all powerful admins moderators and benevolent dictators for life In Governable Spaces Nathan Schneider argues that the internet has been plagued by a phenomenon he calls implicit feudalism a bias both cultural and technical for building communities as fiefdoms The consequences of this arrangement matter far beyond online spaces themselves as feudal defaults train us to give up on our communities democratic potential inclining us to be more tolerant of autocratic tech CEOs and authoritarian tendencies among politicians But online spaces could be sites of a creative radical and democratic renaissance Using media archaeology political theory and participant observation Schneider shows how the internet can learn from governance legacies of the past to become a more democratic medium responsive and

inventive unlike anything that has come before *The Social Fact* John P. Wihbey, 2019-04-16 How the structure of news information and knowledge is evolving and how news media can foster social connection While the public believes that journalism remains crucial for democracy there is a general sense that the news media are performing this role poorly In *The Social Fact* John Wihbey makes the case that journalism can better serve democracy by focusing on ways of fostering social connection Wihbey explores how the structure of news information and knowledge and their flow through society are changing and he considers ways in which news media can demonstrate the highest possible societal value in the context of these changes Wihbey examines network science as well as the interplay between information and communications technologies ICTs and the structure of knowledge in society He discusses the underlying patterns that characterize our increasingly networked world of information with its viral phenomena and whiplash inducing trends its extremes and surprises How can the traditional media world be reconciled with the world of social peer to peer platforms crowdsourcing and user generated content Wihbey outlines a synthesis for news producers and advocates innovation in approach form and purpose *The Social Fact* provides a valuable framework for doing audience engaged media work of many kinds in our networked hybrid media environment It will be of interest to all those concerned about the future of news and public affairs
