Philosophy and hope Diego Fusaro, 2018-02-08T00:00:00+01:00 One of the greatest unsolved issues that Karl Marx bequeathed to his interpreters concerns the legitimacy of practical and theoretical hope both in the frame of his thought and in the wider horizon of philosophy The entire Marxian work seems to be enigmatically suspended between the opposite dimensions of science and hope The interpretative lines chosen by Ernst Bloch and Karl L with see in Marx a philosopher of hope more than a philosopher of science and these reflections recognise the inevitable utopian tension in relation to which science is a secondary and functional phenomenon They both claim that hope is at the heart of Marx s thought however given the antithetic views about this feeling held in their philosophical reflections they end up with an opposite evaluation of hope

Utopia 2300 Robert A. Heinlein, 1971

A Modern Utopia H. G. Wells, 2020-08-14 the Utopia of a modern dreamer must needs differ in one fundamental aspect from the Nowheres and Utopias men planned before Darwin quickened the thought of the world Those were all perfect and static States a balance of happiness won for ever against the forces of unrest and disorder that inhere in things One beheld a healthy and simple generation enjoying the fruits of the earth in an atmosphere of virtue and happiness to be followed by other virtuous happy and entirely similar generations until the Gods grew weary Change and development were dammed back by invincible dams for ever But the Modern Utopia must be not static but kinetic must shape not as a permanent state but as a hopeful stage leading to a long ascent of stages Nowadays we do not

resist and overcome the great stream of things but rather float upon it A Modern Utopia H. G. Wells, 2018-05-10 Wells
uncanny ability to highlight the problems which are now most acute and supply tentative solutions that allow a maximum of
individual freedom merits serious consideration A Modern Utopia is one of the first important blueprints for the modern
welfare state and an early major statement of Wells idea of the World State an idea that is perhaps his greatest contribution
to the intellectual history of this century In this quintessential utopia Wells sums up and clarifies the utopias of the past and
brings them into contact with the world of the present
