

Munkres - Topology - Chapter 3 Solutions

Section 24

Problem 24.3.

Solution: Define $g : X \rightarrow \mathbb{R}$ where $g(x) = f(x) = i_2(x) = f(x) = x$ where i_2 is the identity function. Since f and i_2 are continuous, g is continuous by Theorems 18.2(a) and 21.5. Since X is connected for all three possibilities given in this problem and $\mathbb{R}$ is ordered, the intermediate value theorem applies.

For $X = [0, 1]$, observe that $g(0) \geq 0 - 0 = 0$ and $g(1) \leq 1 - 1 = 0$. Clearly if either $g(0)$ or $g(1)$ equals 0, then there is an $x_0 \in X$ where $f(x_0) = x_0 = 0$, so $f(x_0) = x_0$. Otherwise, $g(0) > 0$ and $g(1) < 0$, so by the intermediate value theorem there is some $x_0 \in X$ where $g(x_0) = 0$, so $f(x_0) = x_0$.

The proposition is not necessarily true if $X = [0, 1]$ or $X = (0, 1)$. Let $f(x) = (1 + x)/2$, which is obviously continuous. It follows that $f(x) = x$ if and only if $x = 0$, which not in X .

Problem 24.4.

Solution: If X has only one element, it is trivially a linear continuum, so we will assume X has at least two elements. Let $x, y \in X$ where $x < y$. Since X is connected, $(-\infty, y)$ and (x, ∞) cannot be a separation of the space. Since the two open sets are clearly non-empty, it must be that they are not disjoint. Therefore there is some $z \in (-\infty, y) \cap (x, \infty)$. From which it follows that $z < y$ and $x < z$. We infer that $x < z < y$.

Next, let Y be a non-empty subset of X that is bounded above, and suppose Y has no supremum. Define $M = \{x \in X : x \leq z \text{ for all } z \in Y\}$ (in other words, the set of all upper bounds of Y). Since Y is bounded above, M is non-empty. Then let $A = \bigcup_{z \in Y} (-\infty, z)$ and $B = \bigcup_{z \in Y} z(\infty, \infty)$. It follows that A and B are a separation of X , contradicting that X is connected. Given $x_0 \in X$, if $x_0 < y$ for some $y \in Y$, then $x_0 \in (-\infty, y) \subset A$. On the other hand, if $x_0 \geq y$ for all Y , then there is some $m \in M$ such that $m < x_0$, so $x_0 \in (m, \infty) \subset B$. Hence A and B partition X . Further, if $x_0 \in A \cap B$, then $x_0 < y$ for some $y \in Y$ and $x_0 \geq y'$ for all $y' \in Y$, which is impossible. Therefore A and B are disjoint. Since A and B form an impossible separation of X , we conclude that Y must have a supremum. Accordingly, X is a linear continuum.

Problem 24.4.

Solution: Given $x, y \in X \cap [0, 1]$ where $x < y$, we have $x = x_0 \vee x_1$ and $y = y_0 \vee y_1$. Since $[0, 1]$ is a linear continuum, if $x_0 < y_0$, let $x_2 \in (x_0, y_0)$; if $x_0 = y_0$, let $x_2 \in (x_0, y_1)$. Hence if $x = x_0 \vee x_1$, then $x < x_2 < y$.

Now let A be a non-empty subset of $X \cap [0, 1]$ that is bounded above. Define $M = \{x \in X \cap [0, 1] : m \leq x \text{ for all } m \in A\}$, which is the set of all upper bounds of A . Since A is bounded above, we've assured that M is non-empty. Designate $d = \{m_0(\infty) : m_0 \in M\}$, which must be a non-empty subset of X . Since X is well-ordered, there is a least element x' of d . If $x' \notin m_1(A)$, then $x' < 0 \leq m$ for all $m \in A$. Further, if $x'' < x'$, then any element of $x'' \cap [0, 1]$ must be less than some element of A because no upper bound of A has a first coordinate less than x' . Hence $x' = 0$ is the supremum of A . On the other hand, if $x' \in m_1(A)$, the set $N = \{m_2(a) : a \in A\}$ is a non-empty subset of $[0, 1]$ that is bounded above by 1, so it has a supremum y' . Accordingly, if $x \in [0, y')$, there is some $d > x$ such that $x' < d \in A$, which is greater than $x' = 0$. Therefore $x' < y'$ is the supremum of A , and $X \cap [0, 1]$ has the supremum property. We conclude that $X \cap [0, 1]$ is a linear continuum.

Problem 24.9.

Solution: Designate $X = \mathbb{R}^2 \setminus A$, and let $x, y \in X$ be given. If there is no element of A on the straight line path in $\mathbb{R}^2$ from x to y , then there is obviously a path between the two points by Exercise 24.8(a). In the non-trivial case where there is an element of A on the straight line path between x and y , designate $D_\theta = \{t \in [0, 2\pi) : \tan^{-1}(m_2(a)) - m_1(x)/m_1(a) = m_1(x)/m_1(a) \neq t \text{ for all } a \in A\}$, which are all the angles around x for which there is no element of A on the straight line passing through x at that angle. We will show that D_θ is not empty. Assume the contrary is true and D_θ is empty. It would follow that for every element of the interval $[0, 2\pi)$, there is some element of A on the line at that angle. Consequently, there is an injection from $[0, 2\pi) \rightarrow A$. Because A is countable, there would be an injection from $[0, 2\pi) \rightarrow \mathbb{N}$, establishing that $[0, 2\pi)$ is countable, a contradiction. Therefore D_θ is not empty. Choose an arbitrary θ_0 from D_θ .

Munkres Topology Solutions Chapter 4

Munkres Topology Solutions Chapter 4 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Munkres Topology Solutions Chapter 4 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Munkres Topology Solutions Chapter 4 has opened up a world of possibilities. Downloading Munkres Topology Solutions Chapter 4 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Munkres Topology Solutions Chapter 4 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Munkres Topology Solutions Chapter 4. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Munkres Topology Solutions Chapter 4. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Munkres Topology Solutions Chapter 4, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Munkres Topology Solutions Chapter 4 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the

vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Munkres Topology Solutions Chapter 4 Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Munkres Topology Solutions Chapter 4 is one of the best book in our library for free trial. We provide copy of Munkres Topology Solutions Chapter 4 in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Munkres Topology Solutions Chapter 4. Where to download Munkres Topology Solutions Chapter 4 online for free? Are you looking for Munkres Topology Solutions Chapter 4 PDF? This is definitely going to save you time and cash in something you should think about.
