*Syllabi for the Academic Years ...* American Society for the Extension of University Teaching, 1901 **Bulletin**, 1887 Architectural Exaptation Alessandro Melis, Telmo Pievani, Jose Antonio Lara-Hernandez, 2024-03-29 Architectural Exaptation When Function Follows Form focuses on the significance and the originality of the study of exaptation It presents exaptation as an opportunity to extend architectural design towards more sustainable approaches aimed at enforcing urban resilience The use of exaptation's definition in architecture supports the heuristic value of cross disciplinary studies on biology and architecture which seem even more relevant in times of global environmental crises This book aims to make a critique of the pre existing and extensive paternalistic literature Exaptation will be described as a functional shift of a structure that already had a prior but different function In architecture a functional shift of a structure that already had a function may apply to forms of decorative elements embedded in architectural components and to both change of function of tectonic elements and the change of use of an architectural space The book is

illustrated with examples from around the globe including China Italy Mexico New Zealand the USA and the UK and looks at different civilizations and diverse historical periods ranging from the urban to the architectural scale Such examples highlight the potential and latent human creative capacity to change the use and functions something that cities and buildings could consider when facing disturbances Exaptation is shown as an alternative narrative to the simplifications of evolutionary puritanism It also offers an innovative perspective and presents an opportunity to re think the manner in which we design and redesign our cities This book will be of interest to architecture planning urban design and biology researchers and students Winner of the Gerd Albers Award 2024 This award is for the best book contribution in the field of Urban Planning and is awarded by International Society of City and Regional Planners ISOCARP Venice's Intimate Empire Erin Maglaque,2018-06-15 Mining private writings and humanist texts Erin Maglaque explores the lives and careers of two Venetian noblemen Giovanni Bembo and Pietro Coppo who were appointed as colonial administrators and governors In Venice s Intimate Empire she uses these two men and their families to showcase the relationship between humanism empire and family in the Venetian Mediterranean Maglaque elaborates an intellectual history of Venice s Mediterranean empire by examining how Venetian humanist education related to the task of governing Taking that relationship as her cue Maglaque unearths an intimate view of the emotions and subjectivities of imperial governors In their writings it was the affective relationships between husbands and wives parents and children humanist teachers and their students that were the crucible for self definition and political decision making Venice s Intimate Empire thus illuminates the experience of imperial governance by drawing connections between humanist education and family affairs From marriage and reproduction to childhood and adolescence we see how intimate life was central to the Bembo and Coppo families experience of empire Maglaque skillfully argues that it was within the intimate family that Venetians relationships to empire its politics its shifting social structures its metropolitan and colonial cultures were determined **Syllabi of the American Society for the Extension of University Teaching** American Society for the Extension of University Teaching,1901 **Ibero-American Ecocriticism** J.
