Empire Of Emptiness:

Empire of Emptiness Patricia Ann Berger,2003-01-01 It examines some of the Buddhist underpinning of the Qing view of rulership and shows just how central images were in the carefully reasoned rhetoric the court directed toward its Buddhist allies in inner Asia The multi lingual culturally fluid Qing emperors put an extraordinary range of visual styles into practice Chinese Tibetan Nepalese and even the European Baroque brought to the court by Jesuit artists *Justice* ,1897 *A Monastery on the Move* Uranchimeg Tsultemin,2020-12-31 In 1639 while the G luk School of the Fifth Dalai Lama and Qing emperors vied for supreme authority in Inner Asia Zanabazar 1635 1723 a young descendent of Chinggis Khaan was proclaimed the new Jebtsundampa ruler of the Khalkha Mongols Over the next three centuries the ger yurt erected to commemorate this event would become the mobile monastery Ikh Kh ree the political seat of the Jebtsundampas and a major center of Mongolian Buddhism When the monastery and its surrounding structures were destroyed in the 1930s they were rebuilt and renamed Ulaanbaatar the modern day capital of Mongolia Based on little known works of Mongolian Buddhist art and architecture *A Monastery on the Move* presents the intricate and colorful history of Ikh Kh ree and of Zanabazar himself an eminent artist Author Uranchimeg Tsultemin makes the case for a multifaceted understanding of Mongol agency during the G luk s political ascendancy and the Qing appropriation of the Mongol concept of dual rulership shashin t r as the nominal Buddhist Government In rich conversation with heretofore unpublished textual archeological and archival sources including ritualized oral histories Uranchimeg argues that the Qing emperors Buddhist Government was distinctly different from the Mongol vision of sovereignty which held Zanabazar and his succeeding Jebtsundampa reincarnates to be Mongolia s rightful rulers This vision culminated in their independence from the Qing and the establishment of the Jebtsundampa s theocratic government in 1911 A groundbreaking work *A Monastery on the Move* provides a fascinating in depth analysis and interpretation of Mongolian Buddhist art and its role in shaping borders and shifting powers in Inner Asia **Emperor Qianlong's Hidden Treasures** Nicole T. C. Chiang,2019-08-15 In this stunning reassessment Nicole T C Chiang argues that the famous Qianlong art collection is really the collection of the imperial household in the Qianlong reign The distinction is significant because it strips away the modern Eurocentric preconceptions that have led scholars to misconstrue the size of the collection the role of nationalism in its formation the distinction between art and artifact and the actual involvement of the emperor in assembling the collection No one interested in Chinese art will be able to ignore the ramifications of this important study *Emperor Qianlong's Hidden Treasures* *Reconsidering the Collection of the Qing Imperial Household* argues that the size of the collection was actually smaller than previously stated Moreover the idea that the collection put the whole of the empire on display and thereby promoted political unity does not square with the reality that most of the collection was hidden away Instead the collection was primarily for the emperor s gaze alone Chiang further explains that the collection was largely the product of work done by many specialists working at the Qianlong court noting that the emperor often assumed a

more supervisory role Preliminary drawings patterns models and prototypes of the items made in the imperial workshops also formed an important part of the collection as they served to establish standardized models used to run the imperial household The collection was thus both broader and narrower than previously stated Chiang has identified many misguided assumptions about the Qing imperial collection In their place she proposes a new definition of an imperial collection that does not give primacy to art objects This bold revisionist thesis may be controversial but it is important and deserves to be read widely for this exact reason Dorothy Ko Barnard College Columbia University Chiang makes a new argument which will contribute to the literature on Qing imperial art She shows that a distinction should be made between the Qianlong emperor's activities in commissioning objects from the palace workshop and his activities in accumulating assessing and cataloguing objects that went into what she calls the imperial household collection This work will attract wide attention from scholars in art history Evelyn S Rawski University of Pittsburgh

Common Ground Lan Wu, 2022-08-23 The Qing empire and the Dalai Lama led Geluk School of Tibetan Buddhism came into contact in the eighteenth century Their interconnections would shape regional politics and the geopolitical history of Inner Asia for centuries to come In Common Ground Lan Wu analyzes how Tibetan Buddhists and the Qing imperial rulers interacted and negotiated as both sought strategies to expand their influence in eighteenth century Inner Asia In so doing she recasts the Qing empire seeing it not as a monolithic project of imperial administration but as a series of encounters among different communities Wu examines a series of interconnected sites in the Qing empire where the influence of Tibetan Buddhism played a key role tracing the movement of objects flows of peoples and circulation of ideas in the space between China and Tibet She identifies a transregional Tibetan Buddhist knowledge network which provided institutional pragmatic and intellectual common ground for both polities Wu draws out the voices of lesser known Tibetan Buddhists whose writings and experiences evince an alternative Buddhist space beyond the state She highlights interactions between Mongols and Tibetans within the Qing empire exploring the creation of a Buddhist Inner Asia Wu argues that Tibetan Buddhism occupied a central but little understood role in the Qing vision of empire Revealing the interdependency of two expanding powers Common Ground sheds new light on the entangled histories of political social and cultural ties between Tibet and China

Wutai Wen-shing Chou,2018-07-24 The northern Chinese mountain range of Mount Wutai has been a preeminent site of international pilgrimage for over a millennium Home to more than one hundred temples the entire range is considered a Buddhist paradise on earth and has received visitors ranging from emperors to monastic and lay devotees Mount Wutai explores how Qing Buddhist rulers and clerics from Inner Asia including Manchus Tibetans and Mongols reimagined the mountain as their own during the eighteenth and nineteenth centuries Wen Shing Chou examines a wealth of original source materials in multiple languages and media many never before published or translated such as temple replicas pilgrimage guides hagiographic representations and panoramic maps She shows how literary artistic and architectural depictions of the mountain permanently transformed the site s religious landscape and redefined Inner Asia s relations with China Chou addresses the pivotal but previously unacknowledged history of artistic and intellectual exchange between the varying religious linguistic and cultural traditions of the region The reimagining of Mount Wutai was a fluid endeavor that proved central to the cosmopolitanism of the Qing Empire and the mountain range became a unique site of shared diplomacy trade and religious devotion between different constituents as well as a spiritual bridge between China and Tibet A compelling exploration of the changing meaning and significance of one of the world s great religious sites Mount Wutai offers an important new framework for understanding Buddhist sacred geography *Coffee Sex and Biscuits* Rolf Witzsche,
