Essentials of Geology Reed Wicander,1999 **Getting the Climate Science Facts Right** Medani P.

Bhandari,2022-09-01 Getting the Climate Science Facts Right discusses climate change science with reference to the Intergovernmental Panel on Climate Change IPCC Addressing climate change is the most important public priority of the 21st Century Unlike many issues however this issue is being driven by both science and its interface with politics The main institution for bridging this division between science and international politics is the IPCC As such it is the main source of the facts from which climate change policy is developed This book describes the ways in which the IPCC arrives at these facts and so can be sure they are complete and evidence based Seldom in history has science had such a direct relationship with politics The negotiation of an international policy regime requires at its outset an agreement on the facts In this case the facts are scientific complex and contentious Governments have recognized this and have by using the IPCC set up institutional machinery to provide facts from a source and in a manner that they can accept The way in which the IPCC functions is unique in that it melds the way in which science achieves consensus with the way governments do at the international level Starting with a process to examine review and debate scientific findings leading to a consensus about scientific fact usually expressed as probabilities that the findings will hold over time the IPCC then concludes by using the kind of consensus development mechanism that the United Nations typically uses to achieve agreements leading to the formation of policy regimes The book examines the structure of the IPCC its composition and its procedures in order to achieve an understanding of its role and future **Encounter Earth Interactive Geoscience Explorations +**
