How did the new technologies of WWI affect soldiers fighting on the front lines? Please include at least three examples of new technologies in your answer.	<i>The numerous technological advancements made over the course of the war led to some calling it the first modern war. One of these innovations included trench warfare, in which hundreds of miles worth of open tunnels were dug throughout the course of the war, serving as a type of protection from oncoming enemy attacks. Another invention during this time of war was that of poisonous gas. Marking the first time the weapon was intentionally used, substances such as mustard gas were fired in the air atop enemy trenches or military bases, and could cause blindness, burns, and even death upon anyone exposed to it. Along with these were the innovations made to airplanes, which saw the first practical uses of the crafts in this time of war. While planes weren't advanced enough at the time to use heavy weaponry, though for communication and recon, planes were quite the advancement in this time of war.</i>
How did women get involved in the war effort abroad? Please include at least two examples in your answer.	<i>Before the great war, American women were never allowed to serve in any function of the military process. As the great war rolled around though, and millions of American men were drafted into the war, the need for things such as nursing and clerGENCY emerged greatly, to which women had no problem joining. Midway through the war, the Nursing Corps division of the US Army was initiated, followed by over 21,000 women joining. The women that still wanted to join the cause but had no experience in medicine took jobs overseas, as receptionists and telephone operators, greatly assisting in taking down Germany as result of the first world war.</i>
How was the war experience of a minority soldier different from that of a white soldier? Please include at least three examples in your response.	<i>Along with women, America saw it's first minority military draft, bringing their numbers against the central powers to millions. African Americans were by far the greatest in numbers, though probably the worst treated. Over 365,000 African Americans joined the AEF, though were tasked with secondary jobs such as digging trenches or running supplies to other base camps. Even whilst serving along with their brothers in the war, African American soldiers (and pretty much every other minority) were treated with the utmost harshness, and received nothing but segregation and poor treatment from their brothers in arms. Hispanic Americans and Asian Americans were faced with the same treatment: segregation in social interaction and workforce throughout the war, only being given the worst of the worst jobs during this time.</i>
