

Foreign Policy White Paper 2017

Submission by Ian Dudgeon

Introduction

This submission addresses the issues of the primary importance to us of the Asia-Pacific region, our interests and values, who we are and our image, the need for an independent foreign policy, the US alliance, regional engagement, our multilateral and international legal commitments, and aid and development assistance. It puts the views of the author, an active practitioner in international affairs.

The role of foreign policy

The fundamental role of Australia's foreign policy is to protect and promote Australia's national interests within the global community of which we are part.

Our region

While recognising we are part of a global community, the Asia-Pacific region is the area of primary importance to us for political, economic and national security reasons.

Geographically, this region reaches from South Asia through to North America. It includes India, China, Japan, South Korea, Russia, the US and Canada. It also includes Indonesia and the other ASEANs, as well as New Zealand and those Pacific Island states in the South West Pacific. Also included are critical sea lanes for international trade, especially the Malacca Strait and South China Sea.

This region is home to more than half the world's population, it is the new engine room of the global economy, and the region encompassing most of our two-way trade and investment. Also, more than anywhere else, any major event and most other events that occur in this region, inevitably, will affect at least some, potentially all, of Australia's national interests, directly or indirectly.

The Indo-Pacific region is also important to Australia, but in relative terms, less so than the Asia-Pacific. This region overlaps with South, East and S.E. Asia and extends vital two-way sea lanes westward to include oil supply routes from the Middle East and sea trade access to and from Europe. These western reaches are also where most ADF overseas operational deployments have occurred during the past decade and a half (e.g. Afghanistan, Iraq) in support of UN-mandated or other alliance commitments. But the region's eastern boundary stops mid-Pacific, and most significantly, excludes North America.

The Political Science Student Writer's Manual and Reader's Guide is a practical guide to research reading and writing in political science. The Political Science Student Writer's Manual and Reader's Guide Eighth Edition is a set of instructions and exercises that sequentially develop citizenship academic and professional skills while providing students with knowledge about a wide range of political and governmental concepts, phenomena, and information sources. India's Foreign Policy, 2009 In this volume, scholars specializing in different dimensions of foreign policy analysis examine the dynamics of India's international relations. The volume reviews the economic growth that has propelled it to the status of a globally recognized power and examines its nuclear policy and maritime strategy as a register of its present capabilities and future aspirations. The news media, often neglected in the study of international politics, are studied as an important index to and catalyst for the formulation of government policies. The volume also comprehensively analyses India's bilateral and multilateral relations, their influence on the stability of the subcontinent, their bearing on the country's international presence, and their relevance for its political ambitions.

Theory and Practice of Paradiplomacy Alexander S. Kuznetsov, 2014-10-17 This book examines and systematizes the theoretical dimensions of paradiplomacy: the role of subnational governments in international relations. Throughout the world, subnational governments play an active role in international relations by participating in international trade, cultural missions, and diplomatic relations with foreign powers. These governments, including states in the USA and landers in Germany, can sometimes even challenge the official foreign policy of their national government. These activities, which are regularly promoting the subnational government's interests, have been labelled as paradiplomacy. Through a systematisation of the different approaches in understanding constituent diplomacy, the author constructs an integrative theoretical explanatory framework to guide research on regional governments' involvement in international affairs. The framework is based on a

multiple response questionnaire technique MRQ which provides the matrix of possible answers on a set of key questions for paradiplomacy scholarship This comprehensive analysis of the phenomenon of paradiplomacy sheds light on the development of federalism and multi level governance in a new global environment and contributes to the debates on the issue of actorness in contemporary international affairs This book will be of much interest to students of diplomacy federalism governance foreign policy and IR as well as practitioners of diplomacy *Chinese Politics in the Era of Xi Jinping* Willy Wo-Lap Lam, 2015-03-12 Renowned for his coverage of China's elite politics and leadership transitions veteran Sinologist Willy Lam has produced the first book length study in English of the rise of Xi Jinping General Secretary of the Chinese Communist Party CCP since November 2012 With rare insight Lam describes Xi's personal history and his fascination with quasi Maoist values the factional politics through which he ascended the configuration of power of the Fifth Generation leadership and the country's likely future directions under the charismatic princeling Despite an undistinguished career as a provincial administrator Xi has rapidly amassed more power than his predecessors He has overawed his rivals and shaken up the party state hierarchy by launching large scale anti corruption and rectification campaigns With a strong power base in the People's Liberation Army and a vision of China as an awakening lion Xi has been flexing China's military muscle in sovereignty rows with countries including Japan Vietnam and the Philippines while trying to undermine the influence of the United States in the Asia Pacific region While Xi is still fine tuning his art of governance his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP's status as perennial ruling party do not bode well for economic political or cultural reforms Lam takes a close look at Xi's ideological and political profile and considers how his conservative outlook might shape what the new strongman calls the Great Renaissance of the Chinese race
