Tales from the Haunted South Tiya Miles, 2015-08-12 In this book Tiya Miles explores the popular yet troubling phenomenon of ghost tours frequently promoted and experienced at plantations urban manor homes and cemeteries throughout the South As a staple of the tours guides entertain paying customers by routinely relying on stories of enslaved black specters But who are these ghosts Examining popular sites and stories from these tours Miles shows that haunted tales routinely appropriate and skew African American history to produce representations of slavery for

commercial gain Dark tourism often highlights the most sensationalist and macabre aspects of slavery from salacious sexual ties between white masters and black women slaves to the physical abuse and torture of black bodies to the supposedly exotic nature of African spiritual practices Because the realities of slavery are largely absent from these tours Miles reveals how they continue to feed problematic Old South narratives and erase the hard truths of the Civil War era In an incisive and engaging work Miles uses these troubling cases to shine light on how we feel about the Civil War and race and how the ghosts of the past are still with us **Internet Comedy Television Series, 1997-2015** Vincent Terrace, 2016-02-12

characterized as occult or supernatural into the established category of reality TV. Despite the high number of programs and their evident popularity, paranormal reality television has to date received little critical attention. *Ghost Channels: Paranormal Reality Television and the Haunting of Twenty First Century America* provides an overview of the paranormal reality television genre, its development, and its place in television history. Conducting in-depth analyses of over thirty paranormal television series, including such shows as *Ghost Hunters*, *Celebrity Ghost Stories*, and *Long Island Medium*, author Amy Lawrence suggests these programs reveal much about Americans' contemporary fears. Through her close readings, Lawrence asks: What are these shows trying to tell us, and what do they communicate about contemporary culture if we take them seriously and watch them closely? Ridiculed by nearly everyone, paranormal reality TV shows with their psychics, ghost hunters, and haunted houses provide unique insights into contemporary American culture. Half horror, half documentary realism, these shows expose deep-seated questions about class, race, gender, the value of technology, the failure of institutions, and what it means to be American in the twenty-first century.

The Borley Rectory Companion Paul Adams, Peter Underwood, Eddie Brazil, 2016-09-23. Borley Rectory in Essex, built in 1862, should have been an ordinary Victorian clergyman's house. However, just a year after its construction, unexplained footsteps were heard within the house, and from 1900 until it burned down in 1939, numerous paranormal phenomena, including phantom coaches and shattering windows, were observed. In 1929, the house was investigated by the *Daily Mail* and paranormal researcher Harry Price, and it was he who called it the most haunted house in England. Price also took out a lease of the rectory from 1937 to 1938, recruiting forty-eight official observers to monitor occurrences. After his death in 1948, the water was muddied by claims that Price's findings were not genuine paranormal activity, and ever since, there has been a debate over what really went on at Borley Rectory. Paul Adams, Eddie Brazil, and Peter Underwood here present a comprehensive guide to the history of the house and the ghostly or not-goings-on there.

The Secret of the Butterfly Lovers Keith Richardson, 2007-01-01. Even though Keith Richardson and his wife Francesca own a shop that specializes in angels, and Keith has written the definitive books on America's best-known angel artist, Andy Lakey, Richardson was beyond surprised and, to say the least, skeptical when, during a guided meditation, a fully formed spirit guide appeared to him and began to speak. The story unfolds: The spirit guide called himself Chang, a Chinese title for Emperor, as it turns out, Chang is currently spirit guide to seventeen people, several of whom make an appearance in this book, most notably James Van Praagh. As Richardson is guided by Chang, he learns many important life lessons and receives information about the past lives he and his wife share, along with several of their current acquaintances. Richardson's quest eventually brings him to the Qing Tombs outside Beijing, where Chang offers him a life-changing message that leads him and Francesca to recognize the meaning of true love and forgiveness. This moving and inspiring story has chapters on reincarnation and how it works, plus information on karma and universal laws, i.e., abundance, forgiveness, attraction. A fast and fascinating read. This is a book in the tradition of best-selling New Age titles such as *The Celestine Prophecy* or *Mutant*.
