What Is Ancient History? Walter Scheidel,2025-04-22 From one of today s most innovative ancient historians a provocative new vision of why ancient history matters and why it needs to be told in a radically different global way It s easy to think that ancient history is well ancient history obsolete irrelevant unjustifiably focused on Greece and Rome and at risk of extinction In *What Is Ancient History* Walter Scheidel presents a compelling case for a new kind of ancient history a global history that captures antiquity s pivotal role as a decisive phase in human development one that provided the shared foundation of our world and continues to shape our lives today For Scheidel ancient history is when the earliest versions of today s ways of life were created and spread from farming mining and engineering to housing and transportation cities and government writing and belief systems Transforming the planet this process unfolded all over the world in Eurasia Africa and the Americas often at different times sometimes haltingly but ultimately unstoppably Yet it s rarely studied or taught that way Since the eighteenth century Western intellectuals have dismembered the ancient world driven not only by their quest for professional expertise but also by nationalism colonialism racism and the idealization of Greece and Rome Specialized scholarship has fractured into numerous academic niches obscuring broader patterns and dynamics and keeping us from understanding just how much humanity has long had in common The time has come Scheidel argues to put the ancient world back together by moving beyond the limitations of Greco Roman classics by systematically comparing ancient societies and by exploring early exchanges and connections between them The time has come in other words for an ancient history for everyone **CURRICULUM REFORM IN PAKISTAN** Amna Afreen,2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the

country's problems. The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society. The book represents the fusion of my experiences in Pakistan with extensive literature analysis, interviews, and textbook analysis. This research began when I came to the United States in January 2015 through the SAR program. I wanted to know the answers to profoundly unsettling questions: How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing? I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed. Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky-high inflation. The influential religious leaders mostly belong to the elite class while their followers are mostly lower class. Ruling families and social classes mostly control appointed positions. Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam? Why don't they work to end the disparity of quality education between classes in Pakistan? Instead, many elites run their own lucrative elite Islamic schools. More importantly, why do the ulama, which literally means those who possess knowledge, particularly of Islam, maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions? Why are the ulama silent in the face of ruthless murder and discrimination against Pakistani minorities?

Book Review: Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions, intolerance, and conflicts. Dr. Amna Afreen documents the political, socio-economic, and religious causes, limited government funding, widespread poverty and illiteracy, and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools. The madrasa offers a series of potential solutions and reforms.

Fanon, Fanon, and the Violence of Resistance Zahi Zalloua, 2025-06-26. In a novel pairing of anti-colonial theorist Frantz Fanon with Marxist-Lacanian philosopher Slavoj Žižek, Zahi Zalloua explores the ways both thinkers expose the violence of political structures. This inventive exploration advances an anti-racist critique describing how ontology operates in a racial matrix to produce some human bodies that count and others deemed not quite or non-human that do not. For Fanon and Žižek, the violence of ontology must be met with another form of violence: a revolutionary violence that delegitimizes the logic of the symbolic order and troubles its collective fantasies. Whereas Fanon begins his challenge to ontology by exposing its historical linkages to Europe's destructive imperialist procedures, before proceeding to stretch Marxism along with psychoanalysis to account for the crushing neo-colonial situation, Žižek premises his work on the refusal to accept the totality of ontology. Because of these different points of intervention, Fanon and Žižek together offer a powerful and multifaceted assessment of the liberal anti-racist paradigm whose propensity for identity politics and aversion to class

struggle silence the cry of the dispossessed and foreclose radical change Avoiding contemporary separatist temptations decoloniality and Afropessimism and breaking with a non violent sentimentalist futurology that announces more of the same Fanon and i ek point in a different direction one that eschews identitarian thought in favor of a collective struggle for freedom and equality *Behind from the Start* Lenette Azzi-Lessing,2017 Today there are nearly six million children under the age of 5 living in poverty in the world s richest country Behind from the Start examines what lies behind the stubbornly high rate of poverty among young children in the U S and its consequences It explains the multiple ways in which early life poverty robs millions of children of a promising future and calls for dramatic changes in how we approach this problem

Prisons, Punishment, and the Family Rachel Condry, Peter Scharff Smith, 2018-10-04 Every year millions of families are affected by the imprisonment of a family member Children of imprisoned parents alone can be counted in millions in the USA and in Europe It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but also to understand what the experiences and lived realities of prisoners families means for the sociology of punishment and our broader understanding of criminal justice systems While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy citizenship human rights marginalization exclusion and inequality
