Nixon, 2017-09-21 The financial crisis of 2007 2008 prompted governments across Europe to adopt austerity measures aimed at the reduction of their escalating budget deficits Higher Education in Austerity Europe explores how the resulting cuts in public expenditure together with the increasing reliance on the privatisation of services have impacted on higher education directly through the reduction of public sector provision and indirectly as a result of the social and political consequences of that reduction Moreover it explores how the effects of these economic policies have differed markedly across the national regions of Europe with the result that inequality has increased significantly both within and between national regions and this in turn has led to social and political dislocation within and across communities It is only by viewing higher education within this broader context that we can begin to understand the full implications of the austerity measures introduced over the last ten years Jon Nixon draws together leading scholars to delve into the complexity of impact and response generated by these measures Part 1 focuses on cross European perspectives Part 2 on the impact of austerity measures within national systems and Part 3 on new perspectives and possibilities The volume also includes considered responses from outsiders by academics located in Asia Australia and the USA providing an additional dimension to the analysis As well as analysing the full impact of austerity measures across some of the worst hit national regions of Europe the contributors also identifying openings and possibilities for renewal **8000+ Objective Questions Objective Jharkhand with Budget 2025-2026**

Upstairs and Downstairs James Leggott, Julie Anne Taddeo, 2014-12-11 The international success of Downton Abbey has

led to a revived interest in period dramas with older programs like *The Forsyte Saga* being rediscovered by a new generation of fans whose tastes also include grittier fare like *Ripper Street*. Though often criticized as a form of escapist conservative nostalgia, these shows can also provide a lens to examine the class and gender politics of both the past and present. In *Upstairs and Downstairs*, British Costume Drama Television from *The Forsyte Saga* to *Downton Abbey*, James Leggott and Julie Anne Taddeo provide a collection of essays that analyze key developments in the history of period dramas from the late 1960s to the present day. Contributors explore such issues as how the genre fulfills and disrupts notions of quality television, the process of adaptation, the relationship between UK and US television, and the connection between the period drama and wider developments in TV and popular culture. Additional essays examine how fans shape the content and reception of these dramas and how the genre has articulated or generated debates about gender, sexuality, and class. In addition to *Downton Abbey* and *Upstairs Downstairs*, other programs discussed in this collection include *Call the Midwife*, *Danger*, *UXB*, *Mr Selfridge*, *Parade*, *End Piece of Cake*, and *Poldark*. Tracing the lineage of costume drama from landmark productions of the late 1960s and 1970s to some of the most talked about productions of recent years, *Upstairs and Downstairs* will be of value to students, teachers, and researchers in the areas of film, television, Victorian studies, literature, gender studies, and British history and culture.

Disinherited Majority Charles Derber, 2015-11-17 Thomas Piketty's blockbuster 2014 book *Capital in the 21st Century* may prove to be a game changer, one of those rare books such as Friedan's *The Feminine Mystique* which helped spark a new feminist movement. The world wide flood of commentary suggests Piketty's book has already opened a new conversation, not only about inequality but about class, capitalism, and social justice. Inherited wealth is at the heart of *Capital in the 21st Century*, and Derber shows how the disinherited majority is likely to affect the future. In his new book, Derber shows that there are actually two Pikettys.

different voices of the author on the 1% inheritance and capitalism itself that create a fascinating and unacknowledged hidden debate and conversation within the book Drawing on Piketty's discussion Derber raises fourteen capital questions with new perspectives on caste and class warfare the Great Recession the decline of the American Dream and the Occupy movement that can guide a new conversation about the past and future of capitalism The Disinherited Majority will catalyse a conversation beyond Piketty already emerging in colleges and universities town halls coffee shops workplaces and political parties and social movements an essential class for all Americans

Marquis,2017-01-19T00:00:00Z In The Vigilant Eye Greg Marquis combines the narrative and chronological approach of
traditional institutional history with the critical approaches of social history legal history and criminology The book begins
with the English and Irish roots of nineteenth century British North American policing and traces the development of the
three models of law enforcement that would shape the future the local rural constable the municipal police department and
the paramilitary territorial constabulary Marquis examines the development of provincial police services whose expansion
coincided with the rise of mass automobile ownership and controversies over alcohol prohibition and control and their
eventual absorption into the RCMP In terms of political policing the vigilant eye has monitored harassed and disrupted
various social and political movements ranging from Fenians to communists to Quebec separatists and environmentalists
Marquis argues that the style of community policing in vogue during the 1970s and 1980s lacked confidence and had a
limited impact Canada s simplistic crime fighting model undermines genuine reform including curbs on the use of deadly
force on citizens and justifies the increased militarization of policing Marquis argues that it is time for citizens to turn their
vigilant eye towards police and policing in their own communities The Wealth of (Some) Nations Zak Cope,2019-03-20 In
this provocative new study Zak Cope makes the case that capitalism is empirically inseparable from imperialism historically
and today Using a rigorous political economic framework he lays bare the vast ongoing transfer of wealth from the poorest
to the richest countries through the mechanisms of monopoly rent unequal exchange and colonial tribute The result is a
polarised international class structure with a relatively rich Global North and an impoverished exploited Global South Cope
makes the controversial claim that it is because of these conditions that workers in rich countries benefit from higher
incomes and welfare systems with public health education pensions and social security As a result the internationalism of
populations in the Global North is weakened and transnational solidarity is compromised The only way forward Cope argues

is through a renewed anti imperialist politics rooted in a firm commitment to a radical labour internationalism **25 Years' Chapterwise Solved Questions IAS Pre General Studies Paper I** Arihant Experts,2019-08-09 IAS or Indian Administrative Service is considered one of the toughest examination in the country The examination is conducted by the Union Public Service Commission UPSC for the recruitment of officers for the All India Administrative Civil Services Students who are opting for this examination need to be updated with latest news and trends as the preliminary examination comprises of Objective Type Questions The syllabus is vast and one must be able to understand the areas from which question are expected The new edition of IAS PRE GENERAL STUDIES PAPER 1 CHAPTER WISE SOLVED QUESTIONS of last 25 years with detailed explanation of each and every question This book indicated the nature and trends of the questions being asked UPSC over the time so that students can rework on their strategies The book is divided into 5 main parts according to the latest pattern of the syllabus also it contains 3 IAS PRE GENERAL STUDIES PAPER 1 SOLVED PAPERS 2019 2017 which will give the students some kind of self evaluation about their speed time management in their preliminary examination The answers of solved questions in this book are in a very simple lucid and grammatically correct language which is very useful and helpful and helpful for the students to understand quickly easily This book is like a stepping stones for the students who are aiming to become IAS and serve to the nation TABLE OF CONTENT IAS PRE GENERAL STUDIES PAPER 1 SOLVED PAPER 2019 IAS PRE GENERAL STUDIES PAPER 1 SOLVED PAPER 2018 IAS PRE GENERAL STUDIES PAPER 1 SOLVED PAPER 2017 History of India and Indian National Movement Indian and World Geography Indian Polity and Governance Indian Economy General Science Technology General Knowledge **Other Rivers** Peter Hessler,2024-07-09 An intimate and revelatory account of two generations of students in China s heartland by an author who has observed the country s tumultuous changes over the past quarter century More than two decades after teaching English during the early part of China s economic boom an experience chronicled in his book River Town Peter Hessler returned to Sichuan Province to instruct students from the next generation At the same time Hessler and his wife enrolled their twin daughters in a local state run elementary school where they were the only Westerners Over the years Hessler had kept in close contact with many of the people he had taught in the 1990s By reconnecting with these individuals members of China s Reform generation now in their forties while teaching current undergrads Hessler gained a unique perspective on China s incredible transformation In 1996 when Hessler arrived in China almost all of the people in his classroom were first generation college students They typically came from large rural families and their parents subsistence farmers could offer little guidance as their children entered a brand new world By 2019 when Hessler arrived at Sichuan University he found a very different China as well as a new kind of student an only child whose schooling was the object of intense focus from a much more ambitious cohort of parents At Sichuan University many young people had a sense of irony about the regime but mostly navigated its restrictions with equanimity embracing the opportunities of China s rise But the pressures of extreme

competition at scale can be grueling even for much younger children including Hessler's own daughters who gave him an intimate view into the experience at their local school In Peter Hessler's hands China's education system is the perfect vehicle for examining the country's past present and future and what we can learn from it for good and ill At a time when anti-Chinese rhetoric in America has grown blunt and ugly *Other Rivers* is a tremendous essential gift a work of enormous empathy that rejects cheap stereotypes and shows us China from the inside out and the bottom up As both a window onto China and a mirror onto America *Other Rivers* is a classic from a master of the form

Bihar and Mithila J. Albert Rorabacher, 2016-09-13 The world has become obsessed with the Western notions of progress development and globalization the latter a form of human and economic homogenization These processes through the aegis of the United Nations are comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non-Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India's problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co-opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates
