Design for Transformative Learning Lisa Grocott, 2022-04-06 The creative strategies in Design for Transformative Learning offer a playful and practical approach to learning from and adapting to a rapidly changing world Seeing continuous learning as more than the periodic acquisition of new skills this book presents a design led approach to revising the stories we tell ourselves unlearning old habits and embracing new practices This book maps learning opportunities across the contemporary landscape narrating global case studies from K12 higher education design consultancies and researchers It offers narrative context best practices and emergent strategies for how designers can partner in the important work of advancing a lifetime of learning Committed to driving sustained transformation this is a playbook of practical moves for designing memory making perspective shifting hands on learning encounters The book braids stories from design practice with theories of change transformative learning literature cognitive and social psychology research affect theory and Indigenous knowing Positioning the COVID 19 pandemic as a moment to question what was previously normalised the book proposes playful strategies for seeding transformational change The relational practice at the core of Design for Transformative Learning argues that if learning is to be transformative the experience must be embodied cognitive and social This book is an essential read for design and social innovation researchers facilitators of community engagement and co design workshops design and arts educators and professional learning designers It is a useful primer for K12 teachers organisational change practitioners and professional development facilitators curious to explore the intersection of design and learning The companion website for the book is a practical resource that connects to many of the projects activities methods designers and stories introduced in the book The site includes links to downloadable colour diagrams templates for digital learning encounters and additional reflective narratives on transformative experiences www.designingtransformativelearning.com

Teaching Psychology Douglas A. Bernstein, 2014-06-26 This volume provides thoroughly updated guidelines for preparing and teaching an entire course in psychology Based on best principles and effective psychological and pedagogical research it offers practical suggestions for planning a course choosing teaching methods integrating technology appropriately and effectively developing student evaluation instruments and programs and ideas for evaluation of your own teaching effectiveness While research based this book was developed to be a basic outline of what to do when you teach It is intended as a self help guide for relatively inexperienced psychology teachers whether graduate students or new faculty but also as a core reading assignment for those who train psychology instructors Experienced faculty who wish to hone their teaching skills will find the book useful too

De Gruyter Handbook of Poverty, Disadvantage and Entrepreneurship Michael H. Morris, Susana C. Santos, 2024-12-16 Is entrepreneurship a pathway out of poverty Does creating a business represent a means for improving one's life circumstances Surprisingly little is known about ventures started by those in circumstances of poverty This pioneering handbook integrates diverse perspectives from around

the world regarding the poverty and entrepreneurship interface While the tendency among many scholars economic developers and policymakers is to downplay these ventures arguing they are largely inefficient marginal enterprises that create little innovation and few jobs the chapters in this handbook demonstrate their significant contributions and encourage societies to invest in their development The authors explore a range of factors affecting the ability of the poor to create enterprises that contribute to their well being including the role played by personal capabilities education family support and faith availability of microfinance technology supportive community ecosystems and a munificent institutional environment By shedding light on issues that can help nations realize the potential of these ventures this volume demonstrates how entrepreneurship can serve as a source of empowerment while providing direction regarding ways to surmount the obstacles that stand in the way
