The Redesign of the Global Financial Architecture
Stuart P. M. Mackintosh,2015-10-16 In 2007 2008 the global financial and economic system was in turmoil This volume focuses on how the global financial architecture was redesigned following the financial crash of 2008 Its central claim is that the reforms constituted a paradigm shift a move from the dominance of market authority to the re assertion of state authority over financial markets and actors The book underscores that the cycle of boom and bust of crisis response reform and eventual relapse are not only economic but also conceptual and ideological Ideas matter in the political and economic calculus of policy making Economies are underpinned by and linked to ideological narrative a prevailing policy consensus that places limits on policy actions and options and constitutes a dominant worldview or paradigm To become real to be lasting to impact actual policy choices and market actor decisions a re regulatory paradigm shift cannot just be conceptual or ideological It must also be present in the institutional constructs and policy decisions that flow from the ideological regulatory shift To gauge the fluctuating strength of the paradigm shift the book addresses the G20 summit process the creation of the FSB the policy output of the new forums for signs of permanency strength and possible effectiveness This work presents important new material on the financial crisis and the regulatory response to it which will be valuable for researchers teachers and students alike

Winning the Tax Wars Brigitte Alepin,Blanca Moreno-Dodson,Louise Otis,2016-04-24 Over the past few decades the concentration of wealth and property in the hands of a few has been facilitated by tax evasion tax avoidance and above all by tax competition Fortunately a determined move toward international cooperation among tax authorities is gathering its forces to do battle This invaluable book shows how the globalization of trade the digitization of the economy tax competition between sovereign states the erosion of the tax base and the transfer of profits have all revealed the weaknesses of a traditional tax system that has reached its limits and how numerous states and

groups of states have joined efforts in creating a new international tax system designed to restore fairness and stability in the levying of taxes worldwide Stemming from a 2016 conference initiated by the Canadian non profit organization TaxCOOP convened by the World Bank and bringing together well known taxation experts from prominent international organizations the book presents outstanding contributions highlighting the impacts of tax competition and viable solutions Among the issues and topics covered are the following electronic commerce and electronic money transfer pricing derivatives and hedge funds protecting tax whistle blowers offshore tax investigations possibility of an international tax court impact of tax competition on developing countries carbon pricing tobacco taxation and effective taxation of the ultra wealthy and their financial capital The chapters include details of country experiences and results in some cases analyzed by key protagonists themselves Collectively the contributions take a giant step toward reinforcing the power of sovereign states in sectors such as the environment education and health As an authoritative guide to increasing the level of transparency and accountability of private and public economic actors and restoring citizens trust in the fairness of our global governance systems this peerless volume will be warmly welcomed by tax lawyers taxation authorities and interested academics worldwide **Smart**
