Press Freedom as an International Human Right Wiebke Lamer, 2018-02-27 This book examines why press freedom has not become part of the established international human rights debate despite its centrality to democratic theory It argues that an unrestricted press is not just an important economic actor but also an influential power in the political process a status that interferes with government interests of sustaining their own power and influence Despite the popularity of ideational explanations in the field of human rights studies in the case of promoting press freedom considerations of power and strategic interests rather than ideas dominate state behavior The author makes the case that the current place of press freedom in the human rights debate needs to be rethought not only in developing countries but in liberal democracies as well

**The Child as Musician** Gary E. McPherson, 2015-09-24 The new edition of The Child as Musician A Handbook of Musical Development celebrates the richness and diversity of the many different ways in which children can engage in and interact with music It presents theory both cutting edge and classic in an accessible way for readers by surveying research concerned with the development and acquisition of musical skills The focus is on musical development from conception to late adolescences although the bulk of the coverage concentrates on the period when children are able to begin formal music

instruction from around age 3 until the final year of formal schooling around age 18 There are many conceptions of how musical development might take place just as there are for other disciplines and areas of human potential Consequently the publication highlights the diversity in current literature dealing with how we think about and conceptualise children's musical development Each of the authors has searched for a better and more effective way to explain in their own words and according to their own perspective the remarkable ways in which children engage with music In the field of educational psychology there are a number of publications that survey the issues surrounding child and adolescent development Some of the more innovative present research and theories and their educational implications in a style that stresses the fundamental interplay among the biological environmental social and cultural influences at each stage of a child's development Until now no similar overview has existed for child and adolescent development in the field of music The Child as Musician addresses this imbalance and is essential for those in the fields of child development music education and music cognition
