Learning from Other Religions David Brown, 2023-11-16 One common argument against taking the notion of divine revelation seriously is the extraordinary diversity which exists between the world's major religions How can God be thought to have spoken to humanity when the conclusions drawn are so very different David Brown authoritatively and persuasively tackles this issue head on He refutes the idea that all faiths necessarily culminate in Christianity or that they can be reduced to some facile lowest common denominator arguing instead that ideas may emerge more naturally in one context than another Sometimes because of its own singular situation another religion has proved to be more perceptive on a particular issue than Christianity At other times no religion will hold the ultimate answer because what can be asserted is heavily dependent on what is viable both scientifically and philosophically Although complete reconciliation is impossible a richer notion of revelation so the author suggests can be the result

**Convergence of Faith and Practical Wisdom in Modern Society** Pascal, Ana-Maria,2016-12-21 Religion is considered by many to be something of the past but it has a lasting hold in society and influences people across many cultures This integration of spirituality causes numerous impacts across various aspects of modern life Multiculturalism and the Convergence of Faith and Practical Wisdom in Modern Society is a pivotal reference source for the latest scholarly research on the cultural sociological economic and philosophical effects of religion on modern society and human behavior Featuring extensive coverage across a range of relevant perspectives and topics such as social reforms national identity and existential spirituality this publication is ideally designed for theoreticians practitioners researchers policy makers advanced level students and sociologists Four Overarching Patterns of Culture Robert Strauss,Christopher Strauss,2019-08-20 Justice has been the dominant cultural framework of people in the West for two centuries ever since the rise of constitutional democracies Consciously or not most people in the West have a strong awareness of right and wrong Their sense of morality is generally rooted in an obligation to the rule of law In democratic societies the rule of law ultimately relies on constitutional documents ratified by a widely accepted process of development and implementation For millennia honor has been the dominant cultural framework of most people in the East and Middle East Here people know that speech and behavior display respect or disrespect While pervasive in all relationships honor and shame are most important in the family extended family and local community In the East honor is not necessarily an internal feeling as it is in a justice culture Honor is more often an external attribution bestowed by others rather than claimed by oneself Harmony is prevalent globally in indigenous cultures Many indigenous peoples do not distinguish between the supernatural and natural worlds All aspects of life are connected Interactions with spirit beings are the key to maintaining harmony in order to be secure Reciprocity is a common cultural framework in the Global South Here one learns to develop connections with the right people in given circumstances for needed resources These connections may or may not be characterized as friendships and provide not so much close

friendships as reciprocal exchange In some places reciprocity is the means whereby one survives Representing Religion Tim Murphy,2014-12-05 If religion is continually in a state of flux how can the study of religion critically examine contemporary religious beliefs and values Representing Religion critically examines this crisis of representation The volume traces the history of religious studies critiquing the concept that experience is central to understanding religion The views of influential semioticians and philosophers notably Nietzsche Saussure Foucault Barthes and Bakhtin are used to construct a new methodology for the critical study of religion Representing Religion will be of interest to students and scholars of semiotics as well as theory and method in religious studies **Living Religions** Mary Pat Fisher,2010 Living Religions now in its eighth edition is a highly readable and stimulating survey of the worlds major religious traditions It provides a clear and straightforward account of the development doctrines and practices of the major faiths with an emphasis on the personal consciousness of believers and their own accounts of its relevance in contemporary life The book also describes new and emerging religious movements and explores the attitudes of various faiths towards issues such as the role of women the environment and society as well as covering the disturbing rise in violence perpetrated in the name of religion Highly illustrated with photographs maps and timelines this is the leading overview of the modern religious world **The Sacred Is the Profane** William Arnal,Russell T. McCutcheon,2013 The Sacred Is the Profane collects nine essays written over several years by William Arnal and Russell T McCutcheon that share a convergent perspective not simply that both the category and concept religion is a construct something that we cannot assume to be natural or universal but also that the ability to think and act religiously is quite specifically a modern political category in its origins and effects the mere by product of the modern state These collected essays substantially rewritten for this volume advance current scholarly debates on secularism debates which the authors argue insufficiently theorize the sacred secular church state and private public binaries by presupposing religion often under the guise of such terms as religiosity faith or spirituality to historically precede the nation state The essays return again and again to the question of what religion word and concept accomplishes now for those who employ it whether at the popular political or scholarly level The focus here for two writers from seemingly different fields is on the efficacy costs and the tactical work carried out by dividing the world between religious and political church and state sacred and profane *Justice, Crime, and Ethics* Michael C. Braswell,Belinda R. McCarthy,Bernard J. McCarthy,2010-04-07 The contributions in this book examine ethical dilemmas pertaining to the administration of criminal justice and professional activities in the field Comprehensive coverage is achieved through focus on law enforcement legal practice sentencing corrections research crime control policy and philosophical issues Overviews tie the chapters together with a thematic structure Key concepts discussion questions and case studies enhance the text **Problematizing Religious Freedom** Arvind Sharma,2011-08-08 The concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an

electronically shrinking globe comes to be increasingly characterised by this phenomenon To begin with the concept of religious freedom as embodied in Article 18 of the Universal Declaration of Human Rights seems self evident in nature It is the claim of this book however that although emblematic on the one hand the concept is also problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal This book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom in the world could be enlarged in a way which promotes human flourishing

**The Future of God in the Global Village** Thomas R.

Mcfaul,2011-10 In the long trek of human history the adage that there will never be peace among the nations until there is peace among the religions has never been truer The growing trend toward spiritually inspired violence throughout the emerging global village of the twenty first century has taken a terrible toll on the lives of thousands of innocent victims The primary purpose of this book is to address this issue head on by examining the role that the earth s diverse faith communities can play in stopping the needless hatreds and hostilities that all too often arise from the search for spiritual fulfillment At this stage of human evolution nothing is more urgent
