Bush,2016-10-11 A close up look at the struggle for democracy in Hong Kong Hong Kong in the Shadow of China is a reflection on the recent political turmoil in Hong Kong during which the Chinese government insisted on gradual movement toward electoral democracy and hundreds of thousands of protesters occupied major thoroughfares to push for

full democracy now Fueling this struggle is deep public resentment over growing inequality and how the political system established by China and dominated by the local business community reinforces the divide between those who have profited immensely and those who struggle for basics such as housing

Richard Bush director of the Brookings Institution's Center on East Asia Policy Studies takes us inside the demonstrations and the demands of the demonstrators and then pulls back to critically explore what Hong Kong and China must do to ensure both economic competitiveness and good governance and the implications of Hong Kong developments for United States policy

Cities in Crisis Jörg Knieling, Frank Othengrafen,2015-09-16 In recent years European societies and territories have witnessed the spatial impacts of a severe financial and socio economic crisis This book builds on the current debate concerning how cities and urban regions and their citizens deal with the consequences of the recent financial and socio economic crisis Cities in Crisis examines the political and administrative implications of austerity measures applied in southern European cities These include cuts in local public spending and the processes of privatization of local public assets as well as issues related to the re scaling recentralization or decentralization of competencies Attention is paid to the rise of new austerity regimes the question of their legitimacy and their spatial manifestations and in particular to the social consequences of austerity The contributions to this book lay the foundation for recommendations on how to improve and consolidate qualified governance

arrangements in order to better address rapid economic and social changes Such recommendations are applicable to cities and urban regions both within and outside of Europe It identifies possible approaches tools and partnerships to tackle the effects of the crisis and to prepare European cities for future challenges

The Borders of "Europe" Nicholas De Genova, 2017-08-26 In recent years the borders of Europe have been perceived as being besieged by a staggering refugee and migration crisis The contributors to *The Borders of Europe* see this crisis less as an incursion into Europe by external conflicts than as the result of migrants exercising their freedom of movement Addressing the new technologies and technical forms European states use to curb control and constrain what contributors to the volume call the autonomy of migration this book shows how the continent's amorphous borders present a premier site for the enactment and disputation of the very idea of Europe They also outline how from Istanbul to London Sweden to Mali and Tunisia to Latvia migrants are finding ways to subvert visa policies and asylum procedures while negotiating increasingly militarized and surveilled borders Situating the migration crisis within a global frame and attending to migrant and refugee supporters as well as those who stoke nativist fears this timely volume demonstrates how the enforcement of Europe's borders is an important element of the worldwide regulation of human mobility Contributors Ruben Andersson Nicholas De Genova Dace Dzenovska Evelina Gambino Glenda Garelli Charles Heller Clara Lecadet Souad Osseiran Lorenzo Pezzani Fiorenza Picozza Stephan Scheel Maurice Stierl Laia Soto Bermant Martina Tazzioli
